THE subscribers offer to the Wool Growers and Dealers of Wisconsin their services as
Wool Brokers and Commission Merchants.
We will make liberal Cash advances on Wool to be sold in this market, or by our Agents in Buffalo, New York, or Boston; and hold ourselves ready to cash all sales made by us or our agents, when desired.
The long experience of one of our firm in the Wool Trade in New England, and our extensive acquaintance among the manufacturers at the East, will warrant us in promising to other our Wool directly to the consumers, thereby saving to the Grower all intermediate profits.
The advantages to be derived from this system by the Growers, are apparent, without comment.

**PLANEING MILL.**
HAVING purchased the Planeing Mill in the Fourth Ward of the City of Milwaukee, we are prepared to furnish our customers with planed lumber of all descriptions, a good assortment of which will be kept constantly on hand.
We are also prepared and intend to do custom planeing with neatness and despatch, and take this method to inform the public that we have purchased the exclusive right to run the "Woodworth Planeing Machines" in the City and County of Milwaukee, during the Congressional extension, ending Dec. 27th, 1856. All persons are hereby cautioned against infringing on said right, as all infringements will be legally noticed.
SMITH & McVICKER,
Milwaukee, Dec. 23 Lumber Dealers.

**VALUABLE REAL ESTATE AT AUCTION.**
NOTICE IS HEREBY GIVEN, that the undersigned will sell at auction (unless previously sold at private sale) on Saturday, the first day of November next, at ten o'clock A. M. at the American House in the city of Milwaukee, the following tract of land, viz:—The east half of the northeast quarter of section eleven, town seven, north of range sixteen east; containing eighty acres. And the north west quarter of the south east quarter of section ten, town seven, north of range sixteen east; containing forty acres.
This land lies in the extreme part of Jefferson County, about thirty-five miles from Milwaukee, five from the village of Summit, three from Oconomowoc, and 3 or 4 from the plank road; is a rich and truly beautiful farming country. The first named tract is one of the most beautiful eighties in the State, lying high and dry; it is well timbered, has 27 acres nearly cleared and fenced a small block house, and is bounded on the south end by the Oconomowoc River. The other tract is partly dry marsh, and partly timbered land, with about eight acres cleared, and has on it a small log house, and an excellent Saw Mill, with cast iron gearing, all nearly new, which cost $1,600. This mill is erected upon the Oconomowoc River, has a plenty of water all the year, and the same dammed, ample to drive a good Flouring Mill in addition, which is greatly needed in that section.
These two tracts lie upon opposite sides of the Oconomowoc River, from one-fourth to one-half a mile apart, and to any one wishing a good farm and a mill property near, this sale affords a rare chance. These two tracts will be sold either separate or together. Sale positive, no sham bidding, and terms made known at the time of sale. Persons disposed to purchase are especially requested to call and examine the property, and may bargain with Messrs. Spence, upon the premises, or with the undersigned at their office in the city of Milwaukee.
N. B. Title perfect and free from all incumbrance.
McGREGOR & TENNEY.

THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.
Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.
The following are among the advantages offered by this Institution:—
The Guarantee of a large capital securely invested.
The peculiar Benefits secured by the principle of the Loan Department.
The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.
Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.
Part of the Capital is permanently and securely invested in the United States.
Wives may insure the lives of their husbands for their own and the benefit of their children.
The assent of the Society is not necessary to a transfer of the Policy.
For all practical purposes, this Agency is essentially an American Company, strengthened by a large bona fide Capital safely invested in London; equally available to Americans as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any disputes should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.
Medical Examiners fees are paid by the Society
Office in the Law Buildings, 25 Wisconsin street.

**Mutual Life Insurance Company**
OF
NEW YORK.
ACCUMULATED FUND $1,000,439.02!
THIS Company has an accumulated fund of $1,000,439.02 invested on Bonds and Mortgages in the cities of New York and Brooklyn, and the Stocks of the State and City of New York, and of the United States.
STATEMENT OF AFFAIRS FOR THE YEAR ENDING JANUARY 31, 1850.

| | | |
|---|---|---|
| Nett Assets January 31, 1849, ....... | $742,673 14 | |
| Nett Receipts in 1849, ....... | 476,189 19 | |

| Whole number of Policies paid in 1849............ | | 1,755 |
| Whole number of outstanding Policies............ | | 5,709 |

The Premium is paid in Cash annually, or may, if desired, be paid semi-annually, or quarterly, by adding interest to the deferred payments. The CASH principle adopted by this Company, secures to the parties for whose protection insurance may be effected, the WHOLE of the benefits, without subjecting them to the heavy drawback of accumulated premium notes.
Persons may effect insurance upon their lives, or upon the lives of others. Married women can insure the lives of their husbands, for THEIR OWN BENEFIT and for the protection of their children.
Pamphlets explanatory of the principles of Life Insurance, and illustrative of its advantages, may be had, with form of application, and rates of premium, at the office of the Company, No. 35 Wall street, or from any of its Agents.

17 SPRING STREET, 17.
Four Doors East of the American,
*MILWAUKEE, WISCONSIN.*
E. BUTTERFIELD
(Late Butterfield & Averell's.)
WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefore adopted the
ONE PRICE SYSTEM,
and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete, and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of
Brandy, Gin, Rum, Wines, &c.
The following may be found among my stock:—
BRANDY.
Otard, Dupuy & Co.; Pinet, Castellon & Co.; James Hennessy; A. Signette; St. Vincent; United Proprietors; J. S. Dupuy, &c.
GIN.
Meader, Swan, Stag, Belle, Bell, Imperial, Wolf.
RUM.
Granada, St. Croix, Jamaica, New England.
WINES,
SHERRY.
Old Cortes, Gold, Pale.
PORT.
Bull's Blood, Pure Juice, Harris, Harmon, Old London Dock, Burgundy, Spanish.
MADEIRA.
Old Brown, South Side, Blackburn's, Sicily, Lisbon
—ALSO—
Claret, Hock, Champaign, White, Red, Rheinish,
AND OTHER WINES.
London Porter, Scotch Ale, and every other article usually kept in a Liquor Store.
WHISKEY CONSTANTLY ON HAND.
Grateful for the liberal patronage extended to me while connected with the firm of Butterfield & Averell's—I hope with the increased facilities I now possess, and by strict attention to the wants of my customers, to merit a continuance of the same.

**IMPORTANT TO THE PUBLIC!**
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty-eight years experimenting upon these machines, not one in use is of any value for the purpose contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine.
In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

### FROM OUR NEW YORK CORRESPONDENT.

NEW YORK, Monday, Oct. 20.

We are all satisfied this morning by the publication [illegible] address of Kossuth to the American people. It pale [illegible] to the expected arrival [illegible] of the Patriot himself. This admirable paper—admirable, even after an [illegible] double translation from the Magyar into German, and from the German into English—[illegible] at rest the [illegible] doubts and suspicions [illegible] upon the cause of the Magyars and of [illegible] by portions of the press and public men of our country. Kossuth affirms—and who shall doubt his word?—that one of the three conditions of Hungarian fealty to Austria, proposed by him, [illegible] complete equality before the law for all [illegible] and languages that constitute the [illegible] people. This one emphatic statement by Kossuth [illegible] the elaborately circulated [illegible] Kossuth and his Magyars were [illegible] for their own rights and privileges [illegible] over the other races—[illegible] was one of the Magyar [illegible] to maintain their ascendancy over the [illegible] population. Not so! He struggled for the independence of Hungary as a nation and of all her people as Hungarians. *Louis Kossuth* [illegible] address to the people of the United States: who shall gainsay it?

The exposition, moreover, in this admirable address, of the character and motives of the God-[illegible] nation whom Kossuth so successfully and [illegible] at [illegible] for the present—[illegible] their cause and its martyrs and [illegible] to the good will and confidence [illegible] American people—for we, too, are a [illegible] people, and cannot sympathize with [illegible] for license, and plunder, and [illegible] for regulated freedom [illegible] and altar-stone, [illegible] Godless anarchists or [illegible] of an earnest, devout people [illegible] native land, and trustful in the protection of the God of their fathers. [illegible] the colossal arm of Russia [illegible] and constancy—but [illegible] the appeal lies to the future, and to the Human race—and especially it lies to [illegible] American Republicans—and our answer must be given to this appeal by the manner of our reception of Kossuth—who is the Hero not only of [illegible] but of the European movement [illegible] Freedom and Human Rights.

Kossuth, on our shores, will be the type of all [illegible] of Humanity struggling against [illegible] and slavery—[illegible] in Italy—in Austria—in Germany—in Poland—and in Hungary—[illegible] an opportunity to throw off the yoke, and stand side by side with Americans [illegible] right arms, under the guidance of Heaven, have gotten them the victory. Shall we not receive him, then, with open arms [illegible]? Shall we not make him feel as a [illegible]? There can be but one answer, and that [illegible] the Atlantic to the Pacific, and [illegible]. The *Mississippi*, [illegible] the precious Exile, may, I [illegible] course of a week or ten days.

We are beginning to breathe more freely in Wall Street—the strict [illegible] upon the financial chest [illegible] relieved. California poured [illegible] millions last week, and the new [illegible] coming to ward rapidly, will furnish [illegible] in payment of debts [illegible]. But it should not be desired by any well-wisher to our permanent peace and prosperity, that money be so plenty again as to encourage the excessive importations of last year [illegible] the consequences are at once mischievous [illegible] stability of our currency—to the working [illegible] mines and mills—and indeed to every other [illegible] of American industry.

Pennsylvania, to be sure, under the [illegible] guidance of James Buchanan, and with the aid of the [illegible] Union Whigs—who opposed so [illegible] Whig as Gov. Johnston because he [illegible] consent to endorse the wisdom [illegible] of the Fugitive Slave Law [illegible] enforced upon every proper occasion [illegible]—Pennsylvania—the great [illegible] State—seems to have thrown herself into the arms of the free trade, or anti-protection party, and to have embraced at once the cause of Southern Slavery, and of European pauper labor. But I do not look upon this vote [illegible] by any means decisive of the vote of Pennsylvania [illegible] the Presidential election; and I have faith that under the flag—never yet lowered in defeat—of WINFIELD SCOTT, Pennsylvania—alike with Ohio and with New York—the three great States of the Union—will rally for victory; and that a long array of other States will march in the same line. So may it be! for with the name and fame of WINFIELD SCOTT every principle dear to a free people is identified—devotion to the Union—deep American feeling—preference always to American Industry—the progress of internal improvements—high and honorable service rewarded—economy promoted—and national principles maintained and advanced, let who may oppose or resist. I can form no better wish for my country than that to WINFIELD SCOTT her destinies may be committed at the next Presidential election.

### MARK THE CONTRAST!

Can any voter in this city, or State, with a spark of MANHOOD in his composition, fail to notice or appreciate the contrast presented by the opposing candidates on the State Ticket, in their positions before the People. Not only did the WHIG State Convention resolve, plump and plain, in favor of a good Banking system for this State; but the WHIG candidates are *all* heartily and *openly* in favor of such institutions. Nay more; Col. HUGHES, our candidate for Lt. Governor, when publicly interrogated, last week, at Mineral Point, in the heart of the *Anti*-Bank region of the State, as to his sentiments on the Bank question, responded at once, *like a man*, "If I lose every vote in this meeting by the declaration, I nevertheless proclaim my intention to vote 'BANK'"!

Col. HUGHES' immediate opponent, Mr. BURNS, is an open and avowed *Anti-Bank* man. And Mr. UPHAM, the Hunker candidate for Governor, when *he* is interrogated, not by opponents, but by personal and political friends, how *he* stands on the Bank question, seeks refuge in silence and *refuses to answer!* MEN OF WISCONSIN! Mark this contrast! Can you respect or trust a man who *studiously conceals his views* on a question of vital importance to you all? Will you, in any event, vote for a "MUM" candidate?

### More Men in "Buckram."

The *Commercial* of Saturday copies from the Green Bay *Spectator* and calls our especial attention to, the following paragraph, forming part of an article on the subject of the Northern Improvement:

It was considered important by the Commissioners, to "spike the cannon" of the most influential Whig paper in the State; and, accordingly, a very large slice of the first year's advertising—more than was bestowed upon any paper away from Oshkosh, except the Green Bay *Advocate*—was given to the Milwaukee *Sentinel*. By this system of operations, about $500 was bestowed upon the Milwaukee *paper*, for advertising, when there was no necessity for its expenditure.

The paragraph in the Green Bay *Spectator* reads "Milwaukee *papers*." The *Commercial clips* the "s" and makes it read "Milwaukee paper;" meaning the public to understand that "about $500" was paid for advertising to the *Sentinel*.

Now mark how a plain tale shall put to shame this Modern FALSTAFF. In 1849 the Commissioners of Public Works sent two advertisements, inviting proposals, to the Milwaukee *Sentinel*, for the publication of which we charged and received the exact sum of $71 50. This is the precise extent of "the very large slice" bestowed upon us, and we have the charity to believe that the Commissioners sent their notices to the *Sentinel*, not from any thought, or expectation of "spiking our artillery," but in the simple business view of giving their advertisements the widest possible circulation among the class from whom they desired to get bids. The *Commercial* however, holds that its political friends wanted to buy up newspaper support, and basing the estimate upon its own conscious venality, thinks that the *Sentinel* was to be "had" for *seventy-one dollars and fifty cents*. We are surprised that the *Commercial* should set its own price so high, but not at all surprised that it should think other papers as vendible commodities as itself.

### Kolob in Wisconsin.

At a late Mormon Jubilee at the Salt Lake city one of the prophets, J. M. Grant, delivered himself of the following sentiment:

"Brigham Young is to the sons of the earth, what Kolob is to the planets—a little ahead of them: I wonder if the planets give light to Kolob, or Kolob to them?

"Softly I crept down by the burn side, to view the small fishes, where the waters so gently did glide up hill! Haloo! ye rulers of the earth!! The world is wrong side up. Kolob is the Great Governing Planet!"

What Brigham Young is to the "*sons* of the earth," and what "Kolob is to the planets"—the *Commercial* of this city aspires to be to the Democracy of Wisconsin. It is altogether doubtful whether the sun shines for the benefit of the *Commercial*, or the latter gives light to the sun.

"The "world is wrong side up"! Kolob says that Mechanics ought not to *aspire* to office. Kolob denounces the Merchants as "*fattening on the hard earnings of the poor man*"! Kolob would like to be "the Great Governing Planet" in Wisconsin—so he would. But the waters don't "so gently glide up hill" in this region—they don't.

### Land Limitation—Two Faces.

The Madison Convention of Loco Focos unceremoniously kicked the Land Limitation question out of doors. This was done in order that their ticket might not share the odium which they found was attached to the question.

But when the friends of Mr. BIDDLECOME, who opposed Wilson's bill in the Assembly, presented his name for Attorney General, the Convention unceremoniously kicked *him* out also, and nominated Mr. ESTABROOK, the particular friend and defender of the Land Limitation measure.

The double game won't win.

### Nominations.

The Free Soil nominee for Assembly in the Western District of Kenosha County is LATHROP BURGESS, of Brighton.

J. R. SHARPSTEIN, is the Hunker candidate for Senator in Kenosha County.

JOHN W. SEAVER is the Free Soil candidate for Assembly in the district composed of the towns of Darien, Walworth, Sharon, and Linn.

In the 3d Assembly district of Washington County, the democracy has nominated ADAM STAY, and in the 5th, B SCHLESINGER WEIL.

WHIG ASSEMBLY NOMINATIONS.—The whigs of the Kenosha District have nominated HENRY K. ELKINS, as their candidate for the Assembly.—This is a nomination not only "fit to be made," but fit to be supported. Mr. ELKINS is a gentleman of excellent character, fair talents and correct principles, and will, if elected, make an efficient and influential Representative.

The whigs of Janesville have also made a first-rate nomination, Mr. WILLIAM A LAWRENCE, for the Assembly, and will, we hope, give him a hearty and successful support.

In CALUMET County, our whig friends have been likewise fortunate in the selection of a candidate, the Manitowoc *Herald* (dem.) thus speaking in his praise:

The Whig candidate for the same office is William Mitchell, Esq. of Stockbridge. Mr. Mitchell is one of the oldest residents of the State, and is a kind-hearted and gentlemanly man, much esteemed and generally known.

"RUNNING EMPTYINGS."—The *Commercial* has got down to the "dregs." It can do no more than repeat the *bc-exploded fabrications* that Mr. FARWELL is a Native American and signed a petition against allowing foreigners to vote, and that we advised the Whig Convention to "disband" and make "no nominations." No respectable Journal, if it had made such charges through misinformation, would persist in them after they were *denied* and *disproved*. But the Commercial clings to these lies as the drowning man clutches at straws. How desperate must be the necessity which drives it to a course which every honest and honorable man must despise!

DUMB AGAIN!—The *Commercial* has dropped that "Exemption vote" like a hot potatoe! Possibly, Mr. ESTABROOK, who was in town last week, gave the "old fogies" of the concern very much such a talking to on *that* point, as some of our MECHANICS did at its insulting and disparaging language towards them.

### THE "BRITISH TARIFF."

We do not propose to go into any argument to maintain our assertion that the tariff of '46 was offered as a boon to the agriculturists, and great promises made of good to arise from its passage,—but to all at for granted; since there is no one fact better established than that Secretary Walker, in his Report for 1847, taking advantage of the circumstance that Ireland was starving and had called for bread, which was sent out in the form of Wheat and Corn to an immense amount, gave all the glory of the increased export to the tariff of '46. In the midst of his absurd rejoicing over this opportunity of turning a visitation of Providence into an argument for Free Trade—so called—he even went so far as to prophesy a proportional increase from year to year, and to insist that our farmers would have all that they could do to supply the enormous demand abroad for our breadstuffs. Here are the calculations, compared with the reality:

Mr. Walker, in his report of that year, estimated the value of exports as follows:

ESTIMATED EXPORTS.

| | |
|---|---|
| 1848 | $222,998,350 |
| 1849 | 329,959,993 |
| 1850 | 488,[illegible]15,056 |

Now the official statements show that he exceeded the actual results by more than *six hundred and forty millions of dollars* for this short period of three years. And here are the figures to convict him:—

ACTUAL EXPORTS.

| | |
|---|---|
| 1848 | $132,634,121 |
| 1849 | 132,666,955 |
| 1850 | 131,900,265 |

Let us recapitulate, so as to present the facts more distinctly and connectedly:

| | |
|---|---|
| Aggregate of estimated exports of Secretary Walker for the years 1848, 1849 and 1850, | $1,041,303,399 |
| Aggregate of official statements for the years 1848, 1849 and 1850, | 396,501,341 |
| Actual decrease on Mr. Walker's estimates, | $649,802,058 |

Yet it was just such promises as these of Sec. Walker which deluded thousands on thousands of honest and industrious laborers to turn their attention to farming; and they can now see the result of it. It is just this British Tariff of '46 which has struck at the dearest interests of our own country, in order to build up a foreign people—which has *not* opened a foreign market, while it *has*, in a great measure, broken down the home market, and compels our Wisconsin farmers to sell their Wheat at 55@62½ cents per bushel, and their Flour at $2 00@3 00 per barrel, or let them rot on their hands.

Directly after the famine year, and in the teeth of Mr. Walker's glorifications, the exports began to fall off; so that while in the year ending June 30, 1847, we sent out wheat, flour, and corn to the amount of $50,879,767,—in the year following we sent but $21,508,368, and in the next year less wheat than in '48 by 226,676 bushels.

If a diminished market, and scanty price for the farmer's produce will not ruin him, what will?—what next experiment does free trade democracy intend to try upon a people whom it has deceived and deluded so often?

Still more—as to Commerce. The effect of the tariff of '46 has been disastrous to the commercial interests of this country. We know very well that the idea is general that, of all other interests, this one is doing the best, and growing at an unprecedented rate of increase. But facts are stubborn things. Mr. Walker promised that, at the close of the sixth fiscal year, from 1847, 30th June, the tonnage of this country should reach 8,000,000. Here are the true figures; they tell a sad tale:

Vessels arriving from and departing for Foreign countries, during

| | No. Vessels. | Tonnage. |
|---|---|---|
| 1847—1848. | | |
| American, | 11,208 | 2,558,334 |
| Foreign, | 8,992 | 1,710,525 |
| | 20,260 | 4,258,859 |
| 1849—1850. | | |
| American, | 8,112 | 2,673,016 |
| Foreign, | 10,400 | 1,775,624 |
| | 18,512 | 4,318,639 |
| 1850—1851. | | |
| American, | 7,732 | 2,718,413 |
| Foreign, | 9,244 | 1,599,541 |
| | 16,976 | 4,317,954 |

Here is an increase in commerce, with a vengeance! and this too during a period in which the population of the country has increased at least 16 per cent.

Need we go further to prove the ruinous effect of the tariff of '46? the BRITISH TARIFF—enacted, openly and aboveboard, to build up a *British* market?

Let one thing be remembered; that, when, in the last Congress, an attempt was made to modify this ruinous tariff, by making some slight discriminations in favor of American labor, and to prevent fraudulent invoices, the vote in Congress stood:

| *For Protection.* | | *Against Protection.* | |
|---|---|---|---|
| Whigs, | 85 | Loco Focos, | 93 |
| Loco Focos, | only 5 | Whigs, | 1 |
| Free Soilers, | 3 | Free Soilers, | 2 |
| | 93 | | 96 |

Does not that show who sustains the "British Tariff?"

And let one thing more be remembered! A large number of the politicians who sustain this British Policy against the efforts of the friends of American Industry, were brought up in a purer and more patriotic faith, from which they apostatized from various motives. As an instance of the kind, and directly to the point, inasmuch as we are answering questions of the *Commercial Advertiser*, we need only allude to a Whig State Convention, held at Utica, N. Y., once on a time, whereto JOHN A. BRYAN was a delegate from Cattaraugus Co.; and wherein the said John A. Bryan, fired with a zeal which would not allow the Convention to separate without bearing its testimony in favor of American Industry, submitted the following resolution, which was, of course, unanimously adopted:

☞ *Resolved*, That those Administration Members of Congress from this State who advocated and supported the TARIFF BILL in Congress at the last session, are entitled to the thanks of their constituents for their able and independent course in relation to the PROTECTION OF AMERICAN INDUSTRY, and the ENCOURAGEMENT OF DOMESTIC MANUFACTURES; and that this Convention most cordially tender to them their entire and hearty concurrence. ☜

What a change 'twixt then and now!

SECOND WARD NOMINATION.—At the Democratic caucus in the Second Ward on Friday evening, 315 votes were polled for a candidate for the Assembly, of which CHARLES E. JENKINS received 158, CHARLES GEISBERG 151, and six were thrown out as double votes. It is claimed by Mr. GEISBERG's friends that if the poll had not closed so soon he would have obtained a decisive majority. After the nomination Mr. GEISBERG offered a resolution instructing the candidate to go *for* Banks and *against* Land Limitation. The question was divided; the first half adopted with great unanimity, and the second rejected 51 to 32. We don't believe, nevertheless, that the Second Ward is in favor of Land Limitation, or will vote for a candidate *who is*.

### Whigs of the First Ward.

Read the call for a meeting at the Court House *this* evening at 7 o'clock, to nominate a candidate for the Assembly, and don't fail to attend. With a good nomination and united efforts, there is nearly an even chance for carrying this Assembly District. Let us at least deserve the victory, by doing our best to win it. Be on hand, then, at the Court House TO-NIGHT!

FOURTH ASSEMBLY DISTRICT.—The whigs of the Fourth & Fifth Wards, at their meeting on Saturday evening, nominated JOHN BRADHAM as their candidate for the Assembly. This is a strong and popular nomination and eminently deserving of the united votes and efforts of the whigs of the District.

FIRE.—The dwelling house of Mr. P. N. Cushman near Waukesha, was entirely consumed by fire on Thursday the 23d inst., destroying all the furniture, and most of the clothing, together with some forty or fifty bushels of apples.

For the Daily Sentinel.

### The Fox and Wisconsin Improvement—The Board of Public Works—No. 3.

*Messrs. Editors*:

When our State Legislature accepted the Grant made by Congress for the Fox and Wisconsin Improvement, they created a Board of Public Works, and elected as its members, men who had no known sympathy for the work, or interest in the completion of the Improvement. This Board employed an Engineer, who proved himself well qualified to do their bidding, and who reported a survey with estimates upon vague hypothesis only, without having made even a connected examination of the routes, and consequently without knowing whether his estimates were based upon correct or false data. But this report, although the facts that a survey had not been made were well known, was sufficient for the purposes of the Legislature and the Board, and they made it the foundation for all their subsequent operations.

The lands being the principal thing sought for, a moiety of land was obtained and thrown into market at a price cheapened down to the very lowest rates which would meet this estimate, and contracts were let for the work to be done in an inefficient and unsubstantial manner. These measures were concurred in by our State politicians, and the whole was endorsed by the majority in our State Legislature—thus involving it, a squandering of the fund, the political party that manage our State affairs.

Under these auspices the Improvement was commenced—the lands were sold—the contracts were accepted as done according to specifications—the money paid out—and lo! "*the ruthless hand of time*" swept their labors away, as fast as the State by her officers made the work her own.

The consequence is, the expense for repairs has already amounted to more than the price originally stipulated to be paid for completing these portions of the work in a substantial manner for permanent use, and a considerable proportion of these jobs have now got to be done entirely over again.

Such is the pertinacity with which they adhere to their destructive policy, that with the full knowledge of these facts, the whole party and party press unblushingly talk of substantial progress and economy, and represent to the world that all existing evils and miscalculations have been corrected as soon as discovered, and they have the impudence to claim that if they can only be permitted to go along without an investigation, they will bring up the whole matter in the end, for they say the figures show a large quantity of land yet unsold. I shall present some facts relating to the situation of these lands in my next number.

TRUTH.

NAILING "FALSE COIN" TO THE COUNTER!—The *Commercial* of Saturday re-iterates its wanton fabrication against Mr. FARWELL thus:

It is LEONARD J. FARWELL, the Sentinel's candidate for Governor, whose name is on a remonstrance to the Legislature, against extending the right of suffrage to aliens. And further, who took the remonstrance in his own hands and solicited the names of others.

We wait to see what this shameless print will say to Mr. FARWELL's prompt and emphatic denial of its story. Meantime, we bid our ADOPTED CITIZENS remark the gross deceptions which the self styled "democratic" organs seek to pass off upon them.

### "Signs of the Times."

The Monroe *Sentinel*, a zealous supporter of the UPHAM State Ticket, thus shows its hand on the Bank question in its last issue:

We hope that our whig readers and the *Bankites* generally, will not fail to examine the list of broken, suspended and unsafe Banks, on our first page: we also hope that it may preach "trumpet tongued" *against the introduction, into Wisconsin, of an odious banking system.*

The Rock Co. *Badger*, another strong UPHAM paper, comes out, editorially and by its correspondents, *flat-footed* against Banks! These are timely *warnings*. Let the electors of our State, friendly to the introduction of a Sound Banking System here, note well these "signs of the times." Vote for *no* man who is not *pledged to Banks!* Distrust alike the OPEN FOE, the FAINT FRIEND and the ARMED NEUTRAL.

### The Democracy and the Affairs of the State.

Read the following from the Oshkosh *Telegraph*, a "regular democratic" paper, and judge, people of Wisconsin whether such a party ought to be perpetuated in office, to the destruction of the best interests of the State, and the ruin of its reputation:

To every one, who is at all conversant with the present state of our State Internal affairs, it must be evident that a more *reckless and selfish intriguing set of men* we have never had. *Office and interest, with them, has been everything—they have squandered the resources of the State in useless matters*—they have peddled themselves around the country seeking men to aid in their corrupt designs—to aid them in the continuance in office, and the perpetration of their schemes, but they have been most signally defeated. Not one is left to tell the story. They leave their posts *covered with the disgrace of the failure of the Fox and Wisconsin Rivers Improvement, and the irretrievable squandering of the School Fund* and we know not what besides, when they come to pass the "books and papers."

WASHINGTON COUNTY.—Mr. JOHN FITZPATRICK, of Saukville, Washington County, offers himself as an Independent Candidate for Treasurer at the coming election. We are assured that Mr. FITZPATRICK will, if elected, discharge the duties of this office faithfully and efficiently.

We observe by the proceedings of the regular "Democracy" of Washington County, that they gave the "cold shoulder" to *Wisconsin's* "favorite son," DOUGLAS and WALKER, as candidates for the Presidency, and thus declared for the Red DOUGLAS:

*Resolved*, That the Hon. Stephen A. Douglas, is our first choice for President of the United States, subject to the decision of the National Convention, and that we entirely approve of his actions and votes while in the Congress of the United States.

How does the *Commercial* like this instruction from "the BURNS" of Wisconsin?

☞ HON. CHARLES E. CLARKE, late M. C. who was recently nominated by the whigs for State Senator, in New York, has declined, giving as his reason that he intends devoting his whole energies to carry on the enterprise of a Railroad through what is known as the Northern wilderness of New York, from Sacketts Harbor to Saratoga. The project is one of vast importance to the State, which owns wide tracts of land in that region, and its success would be the means of pouring millions into the treasury.

ANOTHER SCREW LOOSE!—The last Fond du Lac *Journal* (Hunker) fires the following shot at Gov. DOTY:

*James Duane Doty.*—This man is said to be meditating permanent retirement to Garlic Island, for the purpose of studying upon the best method of forwarding the Fox & Wisconsin River improvement. He has been Reeding upon the subject for a long time past.

What has the Governor been doing now?

"TRUE AS THE BOOK."—The Depere *Advertiser* says that it is a fact that a delegation from Depere, anti-Upham men, chosen by a majority of the democrats of that town, were "kicked out of the County Convention." We quote the *Advertiser's* words:

The above is true as the book. We were one of that glorious majority which got kicked out of doors. The Wisconsin Democracy are some——, and no mistake.

SPANISH MERINO SHEEP.—At the late Walworth County Fair, Mr. C. H. Smedley presented at the Walworth County Fair, 50 Spanish Merino Bucks which he has just brought from the State of Vermont, one of which drew the first premium.

The farmers of Walworth are doing a great deal to improve their stock of sheep, and will find their interest in it.

"TURN 'EM OUT!"—The Depere *Advertiser*, that "thorn in the flesh" of corrupt Hunkerdom, thus invokes a purging of the democratic party:

The Democracy of Wisconsin are right enough. We doubt not, there exists among the Democracy at home a true spirit of devotion to the interests of the state. But touching the politicians, the resolution hits the nail on the head, and for once at least the whigs have told the truth. *Out upon the present Democratic politicians, say we; out upon them!*

## City Matters.

### FIREMEN'S FESTIVAL.

The Semi-Annual Review of the Milwaukee Fire Department took place on Saturday last. Its interest was enhanced by the presence of the Engineers and Foremen of the Kenosha and Racine Fire Departments, who had been invited to honor the occasion by their attendance. These guests were received, on Friday evening, by the Firemen of Milwaukee, with the usual honors, and were escorted with music and torchlights, to the United States Hotel. Here, after partaking of a collation, got up at short notice but in good style by WEEKS, they took up their quarters for the night.—On Saturday morning the invited guests, accompanied by the Engineers of the Milwaukee Department, made the tour of our city, visiting the several Engine Houses, and finding at the house of Rough and Ready, No. 4, not only a cordial welcome, but a capital repast, tastefully set out, to which ample justice was done.

Soon after 1 o'clock the different companies, composing the Milwaukee Fire Department, assembled at the appointed rendezvous, and having been formed in procession moved thro' the principal streets of our city, making a very fine show and eliciting general admiration. Arrived at the foot of Main Street, the procession halted, and a friendly trial of skill took place among the Engine Companies, all of them showing great efficiency and the several Machines appearing to excellent advantage. The procession then reformed and returning to the United States Hotel, saluted their guests with hearty cheering along the whole line; the different companies proceeding immediately afterwards to their respective head-quarters.

At 8 o'clock the Department reassembled at the U. S. Hotel and escorted their guests, together with his Honor Mayor WALKER, Ex-Mayor UPHAM, the officers of the several Military Companies, the Editors of the City Press, Mr. Treasurer FAIRCHILD, and several other gentlemen, to the American House, where an excellent and abundant supper awaited their attack. An hour was very agreeably spent in discussing the substantial matters bountifully provided by the Messrs. KANE, and then succeeded a *feu de joie* of short speeches, clever toasts and appropriate songs, which was kept up with great spirit till near midnight, and was heartily enjoyed by all present. We have neither space nor time to give a tithe of the good things that were said, or sung; but cannot refrain from a passing allusion to one or two. Mr. H. B. HINSDALE, Chief Engineer of Kenosha, in reply to a sentiment of welcome proposed by Mr. UPHAM, made a very happy and telling speech, closing with a toast to the Chief Engineer of our Milwaukee Fire Department, which was honored with three hearty cheers.—Sheriff WHITE, in response to a "loud call" made upon him by the company, paid a very handsome compliment to the Firemen of our own and sister cities, and proposed a toast in honor of KOSSUTH. This too was honored, as it deserved to be, with *three times three*—a spontaneous and enthusiastic tribute to the gallant son and defender of Hungary. Mr. Treasurer FAIRCHILD, who was called out by a complimentary sentiment to himself and his associates in the State Administration, replied in some humorous and effective remarks, which were loudly applauded. Mr. SCHWARZ, Foreman of No. 2, as good a Company as ever "manned the brakes," sung a Fireman's song of his own composition, which was hailed with acclamations of delight. Our First Assistant, Mr. DAWES, with some of the "Oregon" boys to help, sung two or three very sweet glees, and with "the Badgers," of Hook and Ladder Company, two rousing Fireman's songs. Shortly before midnight the signal to "take up" was given by the Chief Engineer, and after a parting chase and song in front of the U. S. Hotel, the Firemen quietly dispersed to their several abodes; leaving their guests, we trust, favorably impressed with the whole entertainment and ready, on another summons, to come again.—We must not forget to say that the Mayor discharged the duties of presiding officer, with his usual urbanity and address, setting in his own person an excellent example to the whole crowd, to take an active part in the songs, sentiments and supper. The arrangements of the festival could not have been improved and, under the energetic and harmonious direction of the Engineers of our Milwaukee Fire Department, were admirably carried out. The whole affair reflected great credit upon them, upon the Department and upon our City.

FIRE!—Between 3 and 4 o'clock yesterday morning, the alarm of fire startled our firemen out of the deep slumbers to which the fatigues and festivities of Saturday had generally disposed them. It proved to be the old American buildings in the Second Ward; a cluster of wooden tenements, originally composing one large frame hotel, but subsequently cut up into several houses, occupied by numerous tenants, and standing close together. The flames spread with great rapidity among these time-dried structures, and threatened, for a while, the neighboring dwellings. The Fire Department, however, were on the ground early and worked with a will—our Kenosha and Racine guests taking a hand in readily, and the flames were confined to the buildings in which they were first discovered. These were pretty much burnt up; tho' the furniture &c. was mostly got out. The loss to the owner, Mr. ELLIOTT'S, on the buildings, was some $500 or $1000, on which there was no insurance. The lots, however, are so eligibly situated that they will justify much better improvements.

NATIONAL THEATRE.—The bill for this evening is a very good one, embracing the favorite play of "William Tell" and the farce of "Perfection," with an interlude of singing and dancing. The members of the Company are well spoken of for their artistic merits, and have been quite successful in other cities. The Fireman's Festival on Saturday prevented us from being present at their opening. We hear it said, however, that there was a fair house.

NEWSPAPER CHANGE.—The *Volkshalle* has passed into new hands and adopted an improved platform. It advocates a sound Banking system; Internal Improvements; independent action in elections; and opposes Slavery and Slavery extension, Land Limitation, unjust and useless wars &c. The new Editor, Mr. ROESLER, is a gentleman of great ability; a German Republican whose services and sacrifices in the cause of Liberty in the land of his birth, should commend him to the confidence and sympathies of all true friends of freedom, in the land of his adoption. We wish the *Volkshalle*, under its new management, all success.

☞ Senator DODGE arrived in our city Friday Evening, and is making a brief visit to his son-in-law, Col. JOSEPH WARD. The veteran Senator was invited to attend the Fireman's Festival, but was prevented by a previous engagement from doing so. He was remembered, however, by the firemen, and a toast in compliment to him was received with hearty cheers.

FIRE ANNIHILATOR.—Barnum sends word to the Chicago *Tribune* that Mr. G. H. Benedict has purchased the right to sell Philip's machines in Kenosha, Walworth, Rock, Dane, and Washington, in this State.

GOOD FORTUNE TO THE LAFAYETTE FAMILY.—The Paris correspondent of the Boston Atlas says that Madame du Cayla, whose name is associated with the Court of Louis XVIII, among some papers that recently came into her possession, found materials for a great suit in favor of the Lafayettes. These she offered to the Marquis George embarking in the suit. M'me du Cayla engaged to prosecute it herself on his behalf, she to have half the proceeds if the suit was successful. The Court at Bordeaux has decided in her favor. The whole amount recovered is said to be 2,400,000 of which the Lafayette family receive half, or about $240,000.

FATAL ACCIDENT.—Mr. Wells Sherman, of Fort Atkinson, Jefferson Co. came to an untimely end by falling under the wheels of a two horse wagon one day last week. He was on the road west of Waukesha, and attempting to mount his wagon while in motion his foot slipped and he fell under the wheel which passed over his chest, from which he survived but a few hours. He leaves a wife and four children to mourn his loss. Mr. Sherman was a member of the M. E. Church and sustained an unblemished character as a man, and a Christian.—*Elk Horn Star*.

THE FEELING IN SPAIN.—Few days since, Don Andres Arango, a nobleman of Cuba, presented a petition to Her Majesty's Government, asking for certain concessions for Cuba. In order that it might come in its order, he placed it before Bravo Murillo, president of the cabinet. Bravo Murillo refused to take charge of it, giving Andres some pretty hard words. After this Andres succeeded in gaining an audience of the Queen, to whom he presented the petition in person. The august lady said that she deeply regretted [illegible] she was not the mistress of her own desires, or she would at once declare war against the United States, come what might.—*Letter from Spain.*

It must be a very gratifying piece of information, and tend to allay all *fears* on the subject, that "the august lady" cannot be mistress of her own desires!

What a solemn farce that would be which would let loose upon Cuba and poor imbecile Spain, the crazy fighting cocks of Brother Jonathan's dominions? She wouldn't "know what struck her?"

PARODI IN BUFFALO.—The Buffalo *Commercial Advertiser* of Wednesday last thus speaks of Parodi's Concert in that city:

Parodi's Concert last evening was [illegible] one of the most delightful musical entertainments of the season. The vocalists were in fine voice and with scarcely a single exception the pieces were enthusiastically encored. Strakosch was very felicitous in the selection of his subjects and his performance gave unalloyed satisfaction; few of the Pianists of the present day can compete with him in ease and grace—and the warm encore which greeted every piece last evening is good evidence of the estimation he is held in here.

WASHINGTON, Oct. 10.

The President has appointed Judge Sharkey of Miss. Consul at Havana.

The amount of stock issued to foreigners last week was $19,300.

SAVANNAH, Oct. 18.

The trial of the steamer *Pampero* at St. Augustine, has been postponed to December. The Government has sent to New Orleans and other places for evidence.

THE TAIL OF THE COMET
IS forty degrees in length, but so thin in substance that stars are visible through it. The marvellous tales of some nostrum-mongers are nearly as long, and quite as easily seen through.
The proprietor of *Dr. Guysott's Extract of Yellow Dock and Sarsaparilla*, however, has no occasion to resort to *such tales* in order to attract public attention.
The actual cures performed by the article, wherever it is introduced, is the basis upon which the reputation of this remedy is founded, as the hundreds of certificates of renewed hopes, health, and life, that are continually [illegible] in upon him, will prove.
☞ *Humbugs may flourish* for a time, but a remedy must possess rare medicinal virtues to establish the reputation that *Dr. Guysott's Yellow Dock and Sarsaparilla* has established whenever it has been used.

WISTAR'S BALSAM OF WILD CHERRY
imparts new vigor to vital action, as it relieves the system by opening the the pores of the skin, and promoting the secretion of mucous matter. Its action is soothing, sedative and expectorant, by opening the pores, allaying irritation, and by rendering the expulsion of mucous matter easy.
Those who take the Balsam will feel immediate relief from the distressing irritations that accompany diseases of the respiratory organs. The pores are loosened, the Balsam opens them. The Lungs suffer from irritation, the irritation is soothed; the pulse is quiet, and feverish, they are quenched, and the mucous membrane is relieved of its engorgement with rapidity and ease. All by the use of this delightful remedy.

RELIANCE WORKS,
West Water Street, Milwaukee.,
Decker & Seville,
Proprietors and General Manufacturers of
STOVES,
(BOTH WOOD AND COAL,)
FOR COOKING, PARLOR & OFFICE USE; GRATES, FIRE FRONTS, CITY AND COUNTRY HOLLOW WARE, KETTLES of all kinds; SAD-IRONS, STRAW-CUTTERS, CORN-CRACKERS & SHELLERS, AGRICULTURAL IMPLEMENTS, AND PORTABLE
GRIST MILLS.
THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.
In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:
THE ECONOMIST
Double Oven Cooking Stove,
(*Which received the First Premium at the State Fair, lately held at Janesville.*)
Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.
The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.
The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.
The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautiful, ornamental, highly finished, and perfect in every respect; the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.
The RADIATOR is the best coal stove ever got up as a retainer of heat.
Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superseding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.
Those who are in want of an article in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron work, leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

### FROM OUR NEW YORK CORRESPONDENT.

New York, Monday, Oct. 20.

We are all satisfied this morning by the publication of the glorious address of Kossuth to the American people—fit prelude to the expected arrival upon our shores of the Patriot himself. This admirable paper—admirable, even after undergoing a double translation from the Magyar into German, and from the German into English—must set at rest the ill-boding doubts and suspicions cast upon the cause of the Magyars and of Kossuth by portions of the press and public men of our country. Kossuth affirms—and who shall doubt his word?—that one of the three conditions of Hungarian fealty to Austria, proposed by him, was that of complete equality before the law for all the races and languages that constitute the Hungarian people. This one emphatic statement by Kossuth dissipates the elaborately circulated statement that Kossuth and his Magyars were merely contending for their own rights and privileges, and for supremacy over the other races—that, in short the struggle was one of the Magyar aristocracy to maintain their ascendancy over the Sclavonian population. Not so! He struggled for the indefeasible rights of Hungary as a nation, and of all her people as Hungarians. *Louis Kossuth* has said it, in a solemn address to the people of the United States—who shall gainsay it?

The exposition, moreover, in this admirable address, of the character and motives of the God-adoring nation whom Kossuth so successfully and gallantly led—albeit in vain for the present—must commend their cause and its martyrs and brave supporters to the good will and confidence of the whole American people—for we, too, are a God-fearing people, and must sympathize with all [illegible] efforts [illegible] for license, and plunder, and desolation, and overthrow—but for regulated freedom, ancestral rights, and hearth, and altar-stone. Kossuth's was not a horde of Godless anarchists or [illegible], but of an earnest, devout people—loving their native land, and trustful in the protection of the God of their fathers. Domestic treason, and the colossal arm of Russia [illegible] their love, faith, and constancy—that the end is not yet—the appeal lies to the future, and to the Human race—and especially it lies to us American Republicans—and our answer must be given to this appeal by the manner of our reception of Kossuth—who is the Hero, not only of the Hungarian but of the European movement for Human Freedom and Human Rights.

Kossuth, on our shores, will be the type of all there is in Europe of Humanity struggling against chains and slavery—of all there is in Italy—in Austria—in Germany—in Poland—and in Hungary—burning for an opportunity to throw off the yoke, and stand side by side with Americans as men—men whose own right arms, under the guidance of Heaven, have gotten them the victory. Shall we not receive him, then, with open arms and hearts? Shall we not make him feel as a brother? There can be but one answer, and that will be heard in a united, consentaneous shout of Welcome, from the Atlantic to the Pacific, and throughout our wide extension. The *Mississippi*, bearing on board the precious Exile, may, I suppose, be looked for in the course of a week or ten days.

We are beginning to breathe more freely in Wall Street—the stringency upon the financial chest being measurably removed. California poured in nearly two millions last week, and the new cotton crop, coming forward rapidly, will furnish a means of remittance in payment of debts, preferable to coin. But it should not be desired, by any well-wisher to our permanent peace and prosperity, that money be so plenty again as to encourage the excessive importations of last year, of which the consequences are at once mischievous to the stability of our currency—to the working of our mines and mills—and indeed to every other branch of American industry.

Pennsylvania, to be sure, under the evil guidance of James Buchanan, and with the aid of the treacherous Union Whigs—who opposed so approved a Whig as Gov. Johnston because he would not consent to endorse the wisdom, humanity, or nationality of the Fugitive Slave Law although he enforced, upon every proper occasion, obedience to it—Pennsylvania—the great iron and coal producing State—seems to have thrown herself into the arms of the free trade, or anti-protection party, and to have embraced at once the cause of Southern Slavery, and of European pauper labor. Yet I do not look upon this vote as by any means decisive of the vote of Pennsylvania in the Presidential election; and I have faith that under the flag—never yet lowered in defeat—of WINFIELD SCOTT, Pennsylvania—alike with Ohio and with New York—the three great States of the Union—will rally for victory' and that a long array of other States will march in the same line. So may it be! for with the name and fame of WINFIELD SCOTT every principle dear to a free people is identified—devotion to the Union—deep American feeling—preference always to American Industry—the progress of internal improvements—high and honorable service rewarded—economy promoted—and national principles maintained and advanced, let who may oppose or resist. I can form no better wish for my country than that to WINFIELD SCOTT her destinies may be committed at the next Presidential election.

### MARK THE CONTRAST!

Can any voter in this city, or State, with a spark of MANHOOD in his composition, fail to notice or appreciate the contrast presented by the opposing candidates on the State Ticket, in their position before the People. Not only did the WHIG State Convention resolve, plump and plain, in favor of a good Banking system for this State; but the WHIG candidates are *all* heartily and *openly* in favor of such institutions. Nay more; Col. HUGHES, our candidate for Lt. Governor, when publicly interrogated, last week, at Mineral Point, in the heart of the *Anti*-Bank region of the State, as to his sentiments on the Bank question, responded at once, *like a man*, "If I lose every vote in this meeting by the declaration, I nevertheless proclaim my intention to vote 'BANK'"!

Col. HUGHES' immediate opponent, Mr. BURNS, is an open and avowed *Anti-Bank* man. And Mr. UPHAM, the Hunker candidate for Governor, when *he* is interrogated, not by opponents, but by personal and political friends, how *he* stands on the Bank question, seeks refuge in silence and *refuses to answer!* MEN OF WISCONSIN! Mark this contrast! Can you respect or trust a man who *studiously conceals his views* on a question of vital importance to you all? Will you, in any event, vote for a "MUM" candidate?

### More Men in "Buckram."

The *Commercial* of Saturday, copies from the Green Bay *Spectator* and calls our especial attention to, the following paragraph, forming part of an article on the subject of the Northern Improvement:

> It was considered important by the Commissioners, to "spike the cannon" of the most influential Whig paper in the State; and, accordingly, a very large slice of the first year's advertising—more than was bestowed upon any paper away from Oshkosh, except the Green Bay *Advocate*—was given to the Milwaukee *Sentinel*. By this system of operations, about $500 was bestowed upon the Milwaukee *paper*, for advertising, when there was no necessity for its expenditure.

The paragraph in the Green Bay *Spectator* reads "Milwaukee *papers*." The *Commercial clips* the "s" and makes it read "Milwaukee paper;" meaning the public to understand that "about $500" was paid for advertising to the *Sentinel*.

Now mark how a plain tale shall put to shame this Modern FALSTAFF. In 1849 the Commissioners of Public Works sent two advertisements, inviting proposals, to the Milwaukee *Sentinel*, for the publication of which we charged and received the exact sum of $71 50. This is the precise extent of "the very large slice" bestowed upon us, and we have the charity to believe that the Commissioners sent their notices to the *Sentinel*, not from any thought, or expectation of "spiking our artillery," but in the simple business view of giving their advertisements the widest possible circulation among the class from whom they desired to get bids. The *Commercial* however, holds that its political friends wanted to buy up newspaper support, and basing the estimate upon its own conscious venality, thinks that the *Sentinel* was to be "had" for *seventy-one dollars and fifty cents*. We are surprised that the *Commercial* should set its own price so high, but not at all surprised that it should think other papers as vendible commodities as itself.

### Kolob in Wisconsin.

At a late Mormon Jubilee at the Salt Lake city one of the prophets, J. M. Grant, delivered himself of the following sentiment:

> "Brigham Young is to the sons of the earth, what Kolob is to the planets—a little ahead of them: I wonder if the planets give light to Kolob, or Kolob to them?
>
> "Softly I crept down by the barn side, to view the small fishes, where the waters so gently did glide up hill. Haloo! ye rulers of the earth!! The world is wrong side up. Kolob is the Great Governing Planet."

What Brigham Young is to the "*sons of the earth*," and what "Kolob is to the planets"—the *Commercial* of this city aspires to be to the Democracy of Wisconsin. It is altogether doubtful whether the sun shines for the benefit of the *Commercial*, or the latter gives light to the sun.

"The 'world is wrong side up'"! Kolob says that Mechanics ought not to *aspire* to office. Kolob denounces the Merchants as "*fattening on the hard earnings of the poor man*"! KOLOB would like to be "the Great Governing Planet" in Wisconsin—so he would. But the waters don't "so gently glide up hill" in this region—they don't.

### Land Limitation—Two Faces.

The Madison Convention of Loco Focos unceremoniously kicked the Land Limitation question out of doors. This was done in order that their ticket might not share the odium which they found was attached to the question.

But when the friends of Mr. BIDDLECOME, who opposed Wilson's bill in the Assembly, presented his name for Attorney General, the Convention unceremoniously kicked *him* out also, and nominated Mr. ESTABROOK, the particular friend and defender of the Land Limitation measure.

The double game won't win.

### Nominations.

The Free Soil nominee for Assembly in the Western District of Kenosha County is LATHROP BURGESS, of Brighton.

J. R. SHARPSTEIN, is the Hunker candidate for Senator in Kenosha County.

JOHN W. SEAVER is the Free Soil candidate for Assembly in the district composed of the towns of Darien, Walworth, Sharon, and Linn.

In the 3d Assembly district of Washington County, the democracy has nominated ADAM STAATS, and in the 5th, B SCHLESINGER WEIL.

WHIG ASSEMBLY NOMINATIONS.—The whigs of the Kenosha District have nominated HENRY K. ELKINS, as their candidate for the Assembly.—This is a nomination not only "fit to be made," but fit to be supported. Mr. ELKINS is a gentleman of excellent character, fair talents and correct principles, and will, if elected, make an efficient and influential Representative.

The whigs of Janesville have also made a first-rate nomination, Mr. WILLIAM A. LAWRENCE, for the Assembly, and will, we hope, give him a hearty and successful support.

In CALUMET County, our whig friends have been likewise fortunate in the selection of a candidate, the Manitowoc *Herald* (dem.) thus speaking in his praise:

> The Whig candidate for the same office is William Mitchell, Esq. of Stockbridge. Mr. Mitchell is one of the oldest residents of the State, and is a kind-hearted and gentlemanly man, much esteemed and generally known.

"RUNNING EMPTYINGS."—The *Commercial* has got down to the "dregs." It can do no more than repeat the *branded fabrications* that Mr. FARWELL is a Native American and signed a petition against allowing foreigners to vote, and that we advised the Whig Convention to "disband" and make "no nominations." No respectable Journal, if it had made such charges through misinformation, would persist in them after they were *denied and disproved*. But the Commercial clings to these lies as the drowning man clutches at straws. How desperate must be the necessity which drives it to a course which every honest and honorable man must despise!

DUMB AGAIN!—The *Commercial* has dropped that "Exemption vote" like a hot potatoe! Possibly, Mr. ESTABROOK, who was in town last week, gave the "old fogies" of the concern very much such a talking to on *that* point, as some of our MECHANICS did at its insulting and disparaging language towards them.

### THE "BRITISH TARIFF."

We do not propose to go into any argument to maintain our assertion that the tariff of '46 was offered as a boon to the agriculturists, and great promises made of good to arise from its passage,—but to take it for granted; since there is no one fact better established than that Secretary Walker, in his Report for 1847, taking advantage of the circumstance that Ireland was starving and had called for bread, which was sent out in the form of Wheat and Corn to an immense amount, gave all the glory of the increased export to the tariff of '46. In the midst of his absurd rejoicing over this opportunity of turning a visitation of Providence into an argument for Free Trade—so called—he even went so far as to prophesy a proportional increase from year to year, and to insist that our farmers would have all that they could do to supply the enormous demand abroad for our breadstuffs. Here are the calculations, compared with the reality:

Mr. Walker, in his report of that year, estimated the value of exports as follows:

ESTIMATED EXPORTS.

| | |
|---|---|
| 1848 | $229,898,350 |
| 1849 | 329,959,993 |
| 1850 | 488,315,056 |

Now the official statements show that he exceeded the actual results by more than *six hundred and forty millions of dollars* for this short period of three years. And here are the figures to convict him:—

ACTUAL EXPORTS.

| | |
|---|---|
| 1848 | $132,034,121 |
| 1849 | 132,666,955 |
| 1850 | 134,900,265 |

Let us recapitulate, so as to present the facts more distinctly and connectedly:

| | |
|---|---|
| Aggregate of estimated exports of Secretary Walker for the years 1848, 1849 and 1850, | $1,041,303,399 |
| Aggregate of official statements for the years 1848, 1849 and 1850, | 399,501,341 |
| Actual decrease on Mr. Walker's estimates, | $640,802,058 |

Yet it was just such promises as those of Sec. Walker which deluded thousands on thousands of honest and industrious laborers to turn their attention to farming; and they can now see the result of it. It is just this British Tariff of '46 which has struck at the dearest interests of our own country, in order to build up a foreign people—which has *not* opened a foreign market, while it *has*, in a great measure, broken down the home market, and compels our Wisconsin farmers to sell their Wheat at 55@62½ cents per bushel, and their Flour at $2 00@3 00 per barrel, or let them rot on their hands.

Directly after the famine year, and in the teeth of Mr. Walker's glorifications, the exports began to fall off; so that while in the year ending June 30, 1847, we sent out wheat, flour, and corn to the amount of $50,879,707,—in the year following we sent but $21,508,368, and in the next year less wheat than in '48 by 226,676 bushels.

If a diminished market, and a scanty price for the farmer's produce will not ruin him, what will?—what next experiment does free trade democracy intend to try upon a people whom it has deceived and deluded so often?

Still more—as to Commerce. The effect of the tariff of '46 has been disastrous to the commercial interests of this country. We know very well that the idea is general that, of all other interests, this one is doing the best, and growing at an unprecedented rate of increase. But facts are stubborn things. Mr. Walker promised that, at the close of the sixth fiscal year, from 1847, 30th June, the tonnage of this country should reach 8,000,000. Here are the true figures; they tell a sad tale:

Vessels arriving from and departing for Foreign countries, during

| | No. Vessels. | Tonnage. |
|---|---|---|
| | 1847—1848. | |
| American, | 11,268 | 2,558,334 |
| Foreign, | 8,992 | 1,710,525 |
| | 20,260 | 4,258,536 |
| | 1849—1850. | |
| American, | 8,112 | 2,673,016 |
| Foreign, | 10,400 | 1,775,624 |
| | 18,512 | 4,348,639 |
| | 1850—1851. | |
| American, | 7,732 | 2,748,413 |
| Foreign, | 9,244 | 1,599,541 |
| | 16,976 | 4,347,954 |

Here is an increase in commerce, with a vengeance! and this too during a period in which the population of the country has increased at least 16 per cent.

Need we go further to prove the ruinous effect of the tariff of '46? the BRITISH TARIFF—enacted, openly and aboveboard, to build up a *British* market?

Let one thing be remembered; that when, in the last Congress, an attempt was made to modify this ruinous tariff, by making some slight discriminations in favor of American Labor, and to prevent fraudulent invoices, the vote in Congress stood:

| *For Protection.* | | *Against Protection.* | |
|---|---|---|---|
| Whigs, | 85 | Loco Focos, | 93 |
| Loco Focos, | only 5 | Whigs, | 1 |
| Free Soilers, | 3 | Free Soilers, | 2 |
| | 93 | | 96 |

Does not that show who sustains the "British Tariff?"

And let one thing more be remembered! A large number of the politicians who sustain this British Policy against the efforts of the friends of American Industry, were brought up in a purer and more patriotic faith, from which they apostatized from various motives. As an instance of the kind, and directly to the point, inasmuch as we are answering questions of the *Commercial Advertiser*, we need only allude to a Whig State Convention, held at Utica, N. Y., once on a time, whereto JOHN A. BRYAN was a delegate from Cattaraugus Co; and wherein the said John A. Bryan, fired with a zeal which would not allow the Convention to separate without bearing its testimony in favor of American Industry, submitted the following resolution, which was, of course, unanimously adopted:

> ☞ *Resolved*, That those Administration Members of Congress from this State who advocated and supported the TARIFF BILL in Congress at the last session, are entitled to the thanks of their constituents for their able and independent course in relation to the PROTECTION OF AMERICAN INDUSTRY, and the ENCOURAGEMENT OF DOMESTIC MANUFACTURES; and that this Convention most cordially tender to them their entire and hearty concurrence. ☜

What a change 'twixt then and now!

SECOND WARD NOMINATION.—At the Democratic caucus in the Second Ward on Friday evening, 315 votes were polled for a candidate for the Assembly, of which CHARLES E. JENKINS received 15[illegible], CHARLES GEISBERG 151, and six were thrown out as double votes. It is claimed by Mr. Geisberg's friends that if the poll had not closed so soon he would have obtained a decisive majority. After the nomination Mr. GIBBRICH offered a resolution instructing the candidate to go *for* Banks and *against* Land Limitation. The question was divided; the first half adopted with great unanimity, and the second rejected 51 to 32. We don't believe, nevertheless, that the Second Ward is in favor of Land Limitation, or will vote for a candidate *who is*.

### Whigs of the First Ward.

Read the call for a meeting at the Court House *this* evening at 7 o'clock, to nominate a candidate for the Assembly, and don't fail to attend. With a good nomination and united efforts, there is more than an even chance for carrying this Assembly District. Let us at least deserve the victory, by doing our best to win it. Be on hand, then, at the Court House TO-NIGHT!

FOURTH ASSEMBLY DISTRICT.—The whigs of the Fourth & Fifth Wards, at their meeting on Saturday evening, nominated JOHN BURNHAM as their candidate for the Assembly. This is a strong and popular nomination and eminently deserving of the united votes and efforts of the whigs of the District.

FIRE.—The dwelling house of Mr. P. N. Cushman near Waukesha, was entirely consumed by fire on Thursday the 23d inst., destroying all the furniture, and most of the clothing, together with some forty or fifty bushels of apples.

For the Daily Sentinel.

### The Fox and Wisconsin Improvement—The Board of Public Works—No. 3.

*Messrs. Editors:*

When our State Legislature accepted the Grant made by Congress for the Fox and Wisconsin Improvement, they created a Board of Public Works, and elected as its members, men who had no known sympathy for the work, or interest in the completion of the Improvement. This Board employed an Engineer, who proved himself well qualified to do their biddings, and who reported a survey with estimates upon vague hypothesis only, without having made even a connected examination of the routes, and consequently without knowing whether his estimates were based upon correct or false data. But this report, although the facts that a survey had not been made were well known, was sufficient for the purposes of the Legislature and the Board, and they made it the foundation for all their subsequent operations.

The funds being the principal thing sought for, a moiety of land was obtained and thrown into market at a price cheapened down to the very lowest rates which would meet this estimate, and contracts were let for the work to be done in an inefficient and unsubstantial manner. These measures were concurred in by our State politicians, and the whole was endorsed by the majority in our State Legislature—thus involving in a squandering of the fund, the political party that managed our State affairs.

Under these auspices the Improvement was commenced—the lands were sold—the contracts were accepted as done according to specifications—the money paid out—and lo! "*the ruthless hand of time*" swept their labors away, as fast as the State by her officers made the work her own.

The consequence is, the expense for repairs has already amounted to more than the price originally stipulated to be paid for completing these portions of the work in a substantial manner for permanent use, and a considerable proportion of these jobs have now got to be done entirely over again.

Such is the pertinacity with which they adhere to their destructive policy, that with the full knowledge of these facts, the whole party and party press unblushingly talk of substantial progress and economy, and represent to the world that all existing evils and miscalculations have been corrected as soon as discovered, and they have the impudence to claim that if they can only be permitted to go along without an investigation, they will bring up the whole matter in the end, for they say the figures show a large quantity of land yet unsold. I shall present some facts relating to the situation of those lands in my next number.

TRUTH.

NAIL THE "FALSE COIN" TO THE COUNTER!—The *Commercial* of Saturday re-iterates its wanton fabrication against Mr. FARWELL thus:

> It is LEONARD J. FARWELL, the Sentinel's candidate for Governor, whose name is on a remonstrance to the Legislature, against extending the right of suffrage to aliens. And further, who took the remonstrance in his own hands and solicited the names of others.

We wait to see what this shameless print will say to Mr. FARWELL's prompt and emphatic denial of its story. Meantime, we bid our ADOPTED CITIZENS remark the gross deception which the self-styled "democratic" organs seek to pass off upon them.

### "Signs of the Times."

The Monroe *Sentinel*, a zealous supporter of the UPHAM State Ticket, thus shows its hand on the Bank question in its last issue:

> We hope that our whig readers and the *Bankites* generally, will not fail to examine the list of broken, suspended and unsafe Banks, on our first page; we also hope that it may preach "trumpet tongued" *against the introduction, into Wisconsin, of the odious banking system.*

The Rock Co. *Badger*, another strong UPHAM paper, comes out, editorially and by its correspondents, *flat-footed* against Banks! These are timely *warnings*. Let the electors of our State, friendly to the introduction of a Sound Banking System here, note well these "signs of the times." Vote for *no* man who is not *pledged to Banks!* Distrust alike the OPEN FOE, the FAINT FRIEND and the AVOWED NEUTRAL.

### The Democracy and the Affairs of the State.

Read the following from the Oshkosh *Telegraph*, a "regular democratic" paper, and judge, people of Wisconsin whether such a party ought to be perpetuated in office, to the destruction of the best interests of the State, and the ruin of its reputation:

> To every one, who is at all conversant with the present state of our State Internal affairs, it must be evident that a more *reckless, and selfish triumphing set of men* we have never had. *Office and interest, with them, has been everything—they have squandered the resources of the State in useless matters*—they have peddled themselves around the country seeking men to aid in their corrupt designs—to aid them in the continuance in office, and the perpetration of their schemes, but they have been most signally defeated. Not one is left to tell the story. They leave their posts *covered with the disgrace of the failure of the Fox and Wisconsin Rivers Improvement, and the irretrievable squandering of the School Fund*, and we know not what besides, when they come to pass the "books and papers."

WASHINGTON COUNTY.—Mr. JOHN FITZPATRICK, of Saukville, Washington County, offers himself as an Independent Candidate for Treasurer at the coming election. We are assured that Mr. FITZPATRICK will, if elected, discharge the duties of this office faithfully and efficiently.

We observe by the proceedings of the regular "Democracy" of Washington County, that they gave the "cold shoulder" to *Wisconsin's* "favorite sons," DODGE and WALKER, as candidates for the Presidency, and thus declared for the Red DOUGLAS:

> *Resolved*, That the Hon. Stephen A. Douglas, is our first choice for President of the United States, subject to the decision of the National Convention, and that we entirely approve of his actions and votes while in the Congress of the United States.

How does the *Commercial* like this instruction from "the BRAVES" of Wisconsin?

☞ HON. CHARLES E. CLARKE, late M. C. who was recently nominated by the whigs for State Senator, in New York, has declined, giving as his reason that he intends devoting his whole energies to carry on the enterprise of a Railroad through what is known as the Northern wilderness of New York, from Sacketts Harbor to Saratoga. The project is one of vast importance to the State, which owns wide tracts of land in that region, and its success would be the means of pouring millions into the treasury.

ANOTHER SCREW LOOSE!—The last Fond du Lac *Journal* (Hunker) fires the following shot at Gov. DOTY:

> *James Duane Doty.*—This man is said to be meditating permanent retirement to Garlic Island, for the purpose of studying upon the best method of forwarding the Fox & Wisconsin River improvement. He has been Reading upon the subject for a long time past.

What has the Governor been doing now?

"TRUE AS THE BOOK."—The Depere *Advertiser* says that it is a fact that a delegation from Depere, anti-Upham men, chosen by a majority of the democrats of that town, were "kicked out of the County Convention." We quote the *Advertiser's* words:

> The above is true as the book. We were one of that glorious majority which got kicked out of doors. The Wisconsin Democracy are som e——, and no mistake.

SPANISH MERINO SHEEP.—At the late Walworth County Fair, Mr. C. H. Smedley presented at the Walworth County Fair. 50 Spanish Merino Bucks which he has just brought from the State of Vermont, one of which drew the first premium.

The farmers of Walworth are doing a great deal to improve their stock of sheep, and will find their interest in it.

"TURN 'EM OUT!"—The Depere *Advertiser*, that "thorn in the flesh" of corrupt Hunkerdom, thus invokes a purging of the democratic party:

> The Democracy of Wisconsin are right enough. We doubt not, there exists among the Democracy at home a true spirit of devotion to the interests of the state. But touching the politicians, the resolution hits the nail on the head, and for once at least the whigs have told the truth. *Out upon the present Democratic politicians, say we; out upon them!*

## City Matters.

### FIREMEN'S FESTIVAL.

The Semi-Annual Review of the Milwaukee Fire Department took place on Saturday last. Its interest was enhanced by the presence of the Engineers and Foremen of the Kenosha and Racine Fire Departments, who had been invited to honor the occasion by their attendance. These guests were received, on Friday evening, by the Firemen of Milwaukee, with the usual honors, and were escorted with music and torchlights, to the United States Hotel. Here, after partaking of a collation, got up at short notice but in good style by WELLMAN, they took up their quarters for the night.—On Saturday morning the invited guests, accompanied by the Engineers of the Milwaukee Department, made the tour of our city, visiting the several Engine Houses, and finding at the house of Rough and Ready, No. 4, not only a cordial welcome, but a capital repast, tastefully set out, to which ample justice was done.

Soon after 1 o'clock the different companies, composing the Milwaukee Fire Department, assembled at the appointed rendezvous, and having been formed in procession moved thro' the principal streets of our city, making a very fine show and eliciting general admiration. Arrived at the foot of Main Street, the procession halted, and a friendly trial of skill took place among the Engine Companies, all of them showing great efficiency and the several Machines appearing to excellent advantage. The procession then reformed and returning to the United States Hotel, saluted their guests with hearty cheering along the whole line; the different companies proceeding immediately afterwards to their respective head-quarters.

At 8 o'clock the Department re-assembled at the U. S. Hotel, and escorted their guests, together with his Honor Mayor WALKER, Ex-Mayor UPHAM, the officers of the several Military Companies, the Editors of the City Press, Mr. Treasurer FAIRCHILD, and several other gentlemen, to the American House, where an excellent and abundant supper awaited their attack. An hour was very agreeably spent in discussing the substantial matters bountifully provided by the Messrs. KANE, and then succeeded a *feu de joie* of short speeches, clever toasts and appropriate songs, which was kept up with great spirit till near midnight, and was heartily enjoyed by all present.—We have neither space nor time to give a tithe of the good things that were said, or sung; but cannot refrain from a passing allusion to one or two. Mr. H. B. HINSDALE, Chief Engineer of Kenosha, in reply to a sentiment of welcome proposed by Mr. UPHAM, made a very happy and telling speech, closing with a toast to the Chief Engineer of our Milwaukee Fire Department, which was honored with three hearty cheers.—Sheriff WHITE, in response to a "loud call" made upon him by the company, paid a very handsome compliment to the Firemen of our own and sister cities, and proposed a toast in honor of KOSSUTH. This too was honored, as it deserved to be, with *three times three*—a spontaneous and enthusiastic tribute to the gallant son and defender of HUNGARY. Mr. Treasurer FAIRCHILD, who was called out by a complimentary sentiment to himself and his associates in the State Administration, replied in some humorous and effective remarks, which were loudly applauded. Mr. SCHULTZ, Foreman of No. 2, as good a Company as ever "manned the brakes," sung a Fireman's song of his own composition, which was hailed with acclamations of delight. Our First Assistant, Mr. DEWEY, with one of the "Oregon" boys to help, sang two or three very sweet glees, and with "the Badgers," of Hook and Ladder Company, two rousing Fireman's songs. Shortly before midnight the signal to "take up" was given by the Chief Engineer, and after a parting cheer and song in front of the U. S. Hotel, the Firemen quietly dispersed to their several abodes; leaving their guests, we trust, favorably impressed with the whole entertainment and ready, on another summons, to come again.—We must not forget to say that the Mayor discharged the duties of presiding officer, with his usual urbanity and address, setting in his own person an excellent example to the whole crowd, to take an active part in the songs, sentiments and supper. The arrangements of the festival could not have been improved and, under the energetic and harmonious direction of the Engineers of our Milwaukee Fire Department, were admirably carried out. The whole affair reflected great credit upon them, upon the Department and upon our City.

FIRE!—Between 3 and 4 o'clock yesterday morning, the alarm of fire startled our firemen out of the deep slumbers to which the fatigues and festivities of Saturday had generally disposed them. It proved to be the old American buildings in the Second Ward; a cluster of wooden tenements, originally composing one large frame hotel, but subsequently cut up into several houses, occupied by numerous tenants, and standing close together. The flames spread with great rapidity among these time-dried structures, and threatened, for a while, the neighboring dwellings. The Fire Department, however, were on the ground early and worked with a will—our Kenosha and Racine guests taking a hand in readily, and the flames were confined to the buildings in which they were first discovered. These were pretty much burnt up; tho' the furniture &c. was mostly got out. The loss to the owner, Mr. ELLFARTS, on the buildings, was some $500 or $1000, on which there was no insurance. The lots, however, are so eligibly situated that they will justify much better improvements.

NATIONAL THEATRE.—The bill for this evening is a very good one, embracing the favorite play of "William Tell" and the farce of "Perfection," with an interlude of singing and dancing. The members of the Company are well spoken of for their artistic merits, and have been quite successful in other cities. The Firemen's Festival on Saturday prevented us from being present at their opening. We hear it said, however, that there was a fair house.

NEWSPAPER CHANGE.—The *Volkshalle* has passed into new hands and adopted an improved Platform. It advocates a sound Banking system; Internal Improvements; independent action in elections; and opposes Slavery and Slavery extension, Land Limitation, unjust and useless wars &c. The new Editor, Mr. ROESLER, is a gentleman of great ability; a German Republican whose services and sacrifices in the cause of Liberty in the land of his birth, should commend him to the confidence and sympathies of all true friends of Freedom, in the land of his adoption. We wish the *Volkshalle*, under its new management, all success.

☞ Senator DODGE arrived in our city Friday Evening, and is making a brief visit to his son-in-law, Col. JOSEPH WARD. The veteran Senator was invited to attend the Fireman's Festival, but was prevented by a previous engagement from doing so. He was remembered, however, by the Firemen, and a toast in compliment to him was received with hearty cheers.

FIRE ANNIHILATOR.—Barnum sends word to the Chicago *Tribune* that Mr. G. H. Benedict has purchased the right to sell Philip's machines in Kenosha, Walworth, Rock, Dane, and Washington, in this State.

GOOD FORTUNE TO THE LAFAYETTE FAMILY.—The Paris correspondent of the Boston Atlas says that Madame du Cayla, whose name is associated with the Court of Louis XVIII, among some papers that recently came into her possession, found materials for a great suit in favor of the Lafayettes. These she offered to the Marquis George embarking in the suit. M'me du Cayla engaged to prosecute it herself on his behalf, she to have half the proceeds if the suit was successful. The Court at Bordeaux has decided in her favor. The whole amount recovered is said to be 2,400,000 of which the Lafayette family receive half, or about $240,000.

FATAL ACCIDENT.—Mr. Wells Sherman, of Fort Atkinson, Jefferson Co. came to an untimely end by falling under the wheels of a two horse wagon one day last week. He was on the road west of Waukesha, and attempting to mount his wagon while in motion his foot slipped and he fell under the wheel which passed over his chest, from which he survived but a few hours. He leaves a wife and four children to mourn his loss. Mr. Sherman was a member of the M. E. Church and sustained an unblemished character as a man and a Christian.—*Elk Horn Star.*

THE FEELING IN SPAIN.—Few days since, Don Andres Aranzo, a nobleman of Cuba, presented a petition to Her Majesty's Government, asking for certain concessions for Cuba. In order that it might come in its order, he placed it before Bravo Murillo, president of the cabinet. Bravo Murillo refused to take charge of it, giving Andres some pretty hard words. After this Andres succeeded in gaining an audience of the Queen, to whom he presented the petition in person. The august lady said that she deeply regretted that she was not the mistress of her own desires, or she would at once declare war against the United States, come what might.—*Letter from Spain.*

It must be a very gratifying piece of information, and tend to allay all *fear* on the subject, that "the august lady" cannot be "mistress of her own desires!"

What a solemn farce that would be which would let loose upon Cuba and poor imbecile Spain, the crazy fighting cocks of Brother Jonathan's domains? She wouldn't "know what struck her"!

PARODI IN BUFFALO.—The Buffalo *Commercial Advertiser* of Wednesday last thus speaks of Parodi's Concert in that city:

> Parodi's Concert last evening was decidedly one of the most delightful musical entertainments of the season. The vocalists were in fine voice and with scarcely a single exception the pieces were enthusiastically encored. Strakosch was very felicitous in the selection of the subjects and his performance gave unfeigned satisfaction; few of the Pianists of the present day can compete with him in ease and grace—and the warm encore which greeted every piece last evening, is good evidence of the estimation he is held in here.

Washington, Oct. 10.

The President has appointed Judge Sharkey of Miss. Consul at Havana.

The amount of stock issued to foreigners last week was $19,600.

Savannah, Oct. 18.

The trial of the steamer *Pampero* at St. Augustine, has been postponed to December. The Government has sent to New Orleans and other places for evidence.

Barley [illegible] without change—sales at 28a30c.

Oats 16a16½c.

Pork $10a11.75. Beef $3a4.75.

MONEY MATTERS.—The New York papers concur in saying that there is a better feeling in the money market.—The demand for money continues good, but is more readily obtained on good [illegible] and at somewhat easier rates. The receipts of from two to two and a half millions of gold by the *Illinois* has given confidence to moneyed men, and should our exportations continue moderate we may look with some reason for a better state of things. ### THE TAIL OF THE COMET

IS forty degrees in length, but so thin in substance that stars are visible through it. The marvellous tales of some nostrum-mongers are nearly as long, and quite as easily seen through.

The proprietor of *Dr. Guysott's Extract of Yellow Dock and Sarsaparilla*, however, has no occasion to resort to *such tales* in order to attract public attention.

The actual cures performed by the article, wherever it is introduced, is the basis upon which the reputation of this remedy is founded, as the hundreds of certificates of renewed hopes, health, and life, that are continually flowing in upon him, will prove.

☞ *Humbugs may flourish* for a time, but a remedy must possess rare medicinal virtues, to establish the reputation that *Dr. Guysott's Yellow Dock and Sarsaparilla* has established wherever it has been used.

### WISTAR'S BALSAM OF WILD CHERRY

imparts new vigor to vital action, and relieves the system by opening the pores of the skin, and promoting the secretion of mucous matter. Its action is sudorific, sedative and expectorant, by opening the pores, allaying irritation, and by rendering the expulsion of mucous matter easy.

Those who take the Balsam will feel immediate relief from the distressing irritation that accompanies affections of the respiratory organs. The pores have been closed, the Balsam opens them. The Lungs suffer from irritation, the irritation is soothed; the pulse is violent and feverish, they are softened, and the mucous membrane is relieved of its engorgement with rapidity and ease. All by the use of this delightful remedy.

# GRIST MILLS.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

### THE ECONOMIST
Double Oven Cooking Stove,
(*Which received the First Premium at the State Fair, lately held at Janesville.*)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect; the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an article in our line, will find it to their advantage to give us a call before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

### JOHN DWIGHT & CO'S
### SODA SALÆRATUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.

The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co's

### Washing & Cleansing Powders,

which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron work, leaving the iron perfectly dry, and not liable to rust.

Directions for use are printed on each package.

Boston Oct. 20.

Boston Tragedy.—Thomas Davis who murdered his sister last evening, for having married contrary to his wishes, returned from California last May, and has been employed in the Navy Yard till within a few days, when he was discharged. He sternly denied his guilt, but there is little doubt of it. The murdered woman was the wife of Mr. Van Wagner of Poughkeepsie, who is connected with the Tow Boat Line. She is represented as young and beautiful. The murderer is a widower with two children, and boarded with his sister, the deceased.

Owen Sullivan, living in Atkinson street, beat his wife to death. He has fled, but officers are on track.

Illness of Miss Hayes.—Miss Hayes' Concert announced for Saturday evening last, has been postponed until Tuesday, in consequence of her indisposition.

A personal encounter took place at the Atlas office, between Col. Schouler and Samuel A. Way, a State street broker. Way called Schouler a scoundrel, whereupon the latter kicked the former down stairs.

New York, Oct. 20.

A serious accident occurred last evening, on the New Jersey Railroad, between Newark and Hackensack Bridge, by the Mail Train from Philadelphia, running over a cow. The Locomotive was thrown down an embankment and turned bottom upwards. The Engineer escaped by jumping from the engine. A fireman had his leg broken, and several others were injured. The contents of the baggage trains were buried in the mud, the mail cars thrown across the track, &c.

A letter from Panama, dated the 7th, two days later than the papers received on Saturday, mentions that the city was much excited in consequence of a murder committed on a native woman by John Perfect, an Englishman. He, in attempting to escape, was nearly beaten to death by the natives. He was taken to prison in a dying condition.

The rainy season on the Isthmus was nearly over.

A riot occurred on board the steamer Northerner on her late trip to San Francisco, caused by the passengers interfering with the Captain, who was putting a man smuggled on board, ashore, at Acapulco. The conduct of the passengers it is said, was highly mutinous.

### Singular Fate of an Aeronaut.

We translate the following remarkable case of death by the fashionable amusement of ballooning, from the *Courrier des Etats Unis*, of Tuesday last. *Buff. Com.*

An account dated Copenhagen, Sept. 16, states that on the previous day, at noon, Mr. Guiseppe Tardini made, from that city, his 23rd aerostatic ascension, which was unhappily terminated by a catastrophe. In the car of the balloon were M. Tardini, his son, a child of eleven years and a young actress.

The balloon ascended rapidly to a considerable height, when it stopped for a few moments, remaining poised directly over the heads of the spectators; then taking a southwesterly direction, passed over the little island of Amack, which is connected with Copenhagen at two points, and immediately descended rapidly into the sea, not far from the village of Kongslund, on the island. Tardini, at the moment when the car touched the water, cut the cords that held it to the balloon, and seizing one of them by both hands, was rapidly borne upward and soon was out of sight. The girl and child were thrown into the water, but were soon rescued by some fishermen. Up to the time of writing, no news has been heard of Tardini or his balloon, but as he could scarcely have retained his hold upon the cord, it is probable that he has perished. Tardini was a native of Novare in Piedmont, and in May last, made at Stockholm, the first ascension ever attempted in the Swedish Norwegian peninsula.

The Hamburg papers state the balloon was subsequently found near Goldberg, in the grand duchy of Mecklenburg-Schwerin, but nothing is said of the aeronaut—his fate is probably determined.

# CHEAP CASH STORE.

**194 West Water Street,**

MILWAUKEE, - - - WISCONSIN.

THIS large Wholesale and Retail Establishment FOR THE SALE OF DRY GOODS, has probably distributed more Dry Goods this spring and given greater satisfaction at the same time, than ever has been known or even attempted in the city of Milwaukee.

PERFECTLY INDEPENDENT

in itself, depending on neither Jobber, Commission Merchant or Importer, being designed for the public benefit as well as the support of the proprietors, under their management it has attained that popularity and favoritism, which is unknown to any other public or private establishment.

Through our connection with the large and influential Importing and Jobbing House of Messrs. Oettinger & Goldstein, in the city of New York, and the unfailing resources of the concern,

**The Most Seasonable Goods,**

direct from the manufacturers, and the large auction sales in the city of New York, are always to be purchased at the lowest possible prices, and we can and will sell

**Goods at least 25 per cent less**

than the price asked at other stores.

LISTEN FOR ONE MOMENT

and you will have an example that will satisfy you:

50,000 yards French, Scotch and American Ginghams, for 1s, worth 2s.

10,000 yards Muslin de Laines and Cashmere d'Ecosse, very fine Goods, from 1s. to 2s, worth more than double. French and English Merinoes, Bombazines, Plain and Figured Alpacas, Parmattas, Linen Poplins, and Lyonese Cloth will be offered so cheap that they can be bought for common wear.

SILKS—Black, Changeable, Striped and Plaid—of the best quality and newest designs, and exceedingly lustrous.

5000 Long and Square Bay State and Brochè SHAWLS, of all sizes and colors, at manufacturers' prices.

Bonnets, Silks, Satins, Velvets, Ribbons, Flowers, Hosiery, Gloves, Trimmings, &c. at extraordinarily low prices.

**STATE FAIR.**

CRANE'S PATENT SOAP took the First Premium at the State Fair at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the American Institute. Of course it did, because it is the BEST SOAP IN USE. If any are still skeptical, let them read the following—the names to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

"We have used Crane's Patent Soap in our families for the past eight months, and pronounce it fully equal to its recommendations. We do not discover that it injures the clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

# TAKE NOTICE!

**PATENT**

# BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons, it is believed to be not only the best, but the cheapest Bedstead that can be used!

In enumerating its advantages, the proprietors only repeat the statement of competent persons in this city, and elsewhere, who have had the best opportunity of judging of its merits.

**FACTS WILL ALWAYS SHOW!**

and when we say that one firm in New York (Troy) manufactured and altered over [under this Patent] TWELVE THOUSAND Bedsteads sold in two years, and that in the eastern cities

**ONE HUNDRED THOUSAND**

Have been made and altered, we tell nothing but the truth, and exemplify the advantage, luxury and economy of this Patent over all others now or heretofore in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Blossom's Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Massilon, O.; Neil House, American House, Capital House, U. S. Hotel, Buckeye Hotel, Columbus, O.

This patent received the

**HIGHEST PREMIUM,**

at the late Fair of Rensselaer county, N. Y.; New York, Albany; State Fair, Erie county, Buffalo; Boston, Mass. State Fair; Wayne county, O.; Stark county, O., and numerous others.

MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Furniture Warehouse of J. F. Birchard, No. 21 Spring-st., 3 doors east of the American House, Milwaukee, where applications for Rights of Towns or Counties will be promptly attended to.

Persons wishing to have their bedsteads remodled on the above plan, will please leave their names with Mr. Birchard, at the above named place, where they will meet with prompt attention. These Bottoms are considered preferable for Lounges or Trundle Beds and will be inserted for the sum of $1,25.

In conclusion, we are free to state to a discerning public that after giving the above Bed Bottom a fair trial, they will award to us the merit of not overrating the good qualities of the "Patent Suspension Bed Bottom," and we confidently look for a liberal encouragement from a common sense public.

**MILLARD, HOLTON & CO.**

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

**A New and Valuable Improvement in Bedsteads.**

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects, to any thing of the kind that we have heretofore known either in this or any other State. Its superiority over all others, consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."

We feel, too, that for cheapness it does not cost any more than the common wood screw, (the expense of the cord and sacking bottom being saved) and for practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

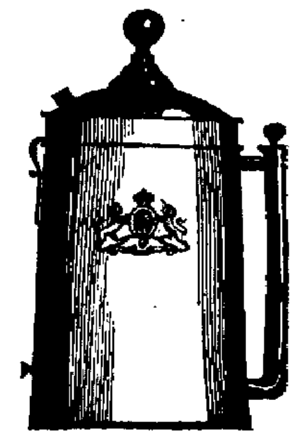
**PHILLIPS' UNITED STATES**



# Fire Annihilator Agency.

THE undersigned respectfully announces that he is the authorized Agent for the English Patentee for the disposal of PHILLIPS' FIRE ANNIHILATORS in the Counties of Milwaukee and Racine. His agency, based upon a certain proprietary interest in the Patent, will be conducted in connection with a company of operation, to be known as

**"Phillips' United States Fire Annihilator Company."**

Of which Hon. ELISHA WHITTLESEY, 1st Comptroller of the United States Treasury at Washington, is the President. Hon. JOHN M. CLAYTON, of Delaware, is Counsel for the Company, and P. T. BARNUM, Esq., General Manager and Secretary.

The prices of Machines, and of Charges, are as follows:

| SIZE OF MACHINE. | PRICE, INCLUDING ONE CHARGE. | PRICE OF EACH SPARE CHARGE. |
|---|---|---|
| No. 1............... | $10............. | $1 25 |
| No. 2............... | 20............. | 1 75 |
| No. 3............... | 25............. | 2 50 |
| No. 4............... | 30............. | 3 00 |
| No. 5............... | 35............. | 3 50 |

Freight from New York added to the above prices.

The machines can be made to order of any size, at proportionate prices.

No. 1 (the smallest size) is valuable for extinguishing fires in chimnies and small apartments.

No. 2 is used with effect in larger buildings, and at the outset of a fire, and has the advantage of being the most portable of the sizes deemed available for houses.

Nos. 3, 4 and 5, are the Hand Machines of greater power. No. 3 can be carried by a lady. Nos. 4 and 5 can only be handled to advantage, by a man, and are preferable for large establishments, as they may be effectually used for street fires.

In addition to the Hand Machine, there are Street or District Annihilators, mounted upon wheels, and intended to be drawn by firemen in the usual manner. These machines are possessed of continuous power, and will emit, through a hose, a stream of vapor upon a burning building for any desirable length of time.

The Portable Machines are so simple in construction that they are not liable to get out of order, and their application is so easy that any person may effectually use them. The chemical charges may be preserved any length of time.—These Machines furnish an infallible protection against the destructive consequences of fire, as they are always ready for constant use, and contain within themselves the means of extinguishing accidental fires, as soon as discovered.

THE FIRE ANNIHILATOR is made to evolve a humid vapor, and to emit it with great expansive force, so as to penetrate into, to search out, and extinguish the fire. But, while the vapor emitted is destructive to fire, it is innoxious to life, and even tends to purify an atmosphere charged with smoke, nor does it injure the furniture or goods which may have escaped the action of the fire. And in this capacity the machines constitute the best fire escape, and the means of rescuing property from the flames the world has ever known; even the smallest machine, inadequate to the extinction of a large fire, will enable the bearer to enter the flames and rescue life and property with perfect impunity.

The merits and practical utility of the Patent Fire Annihilator have been thoroughly tested, and are acknowledged by the most eminently scientific men, and the machines have been, by command, supplied to the Royal Palaces of Queen Victoria. The Crystal Palace of the World's Fair, the mansions of the Nobility, the principal Manufactories of Great Britain and France, Theatres, Churches, and other public edifices, as well as Steamboats, Shipping, &c., now have them in constant use.

One of the great advantages of this invention, will be the immediate reduction it must occasion in the Rates of Insurance; and the underwriters will at once perceive that their profits must be greatly enhanced by the extraordinary diminution of destruction effected at every conflagration.

On the 13th instant a Register will be opened at the office of the Company in Milwaukee, (due notice through the Press will be given of its location,) for the reception of subscriptions for machines, and every person will be served in regular rotation, according to priority of application.—When sent by mail, the application will bear date with the day of depositing in the Post Office. The price of the machines, in all cases, to be paid at the time of subscribing, and seven per cent. interest will be allowed on any time (if any) that said money remains over 20 days before the order is supplied. In this arrangement, however, a priority will be given to all City Corporations, and proprietors of large manufactories, where great risk from fire exists, and where the premium required for Insurance is high; also to theatres, hotels, and large steamers, where many human lives are jeopardized. Every machine will be stamped with the name of the company; and as the company are determined to accommodate the whole public, by supplying machines, of the most durable materials, and chemical charges of the most approved manufacture, at the above reasonable prices, they will prosecute, to the whole extent of the law, all attempts to imitate, counterfeit, or infringe on said patent, as well as every person who may purchase and use such infringements. All importers of Foreign Machines, or those having them in possession, will be prosecuted.

Each machine will be stamped with the name of the county or city for which they are sold, and they can be used in no other locality without a written permission from the Agency. Nor can any purchaser of a machine possess the right to sell the same in any other town, unless he has purchased the territory where said machine is to be sold. Every purchaser of a machine will receive a certificate authorizing him to use the same in the town for which it is purchased.

The subscribers having, in connection with other members of the company, made the strictest investigation and experiments, and being perfectly convinced that this wonderful invention will accomplish all that is urged in its behalf, and thus become an indispensable article for every house, manufactory, ship, or other place where fire is used or may be introduced, have accepted the above appointments and are prepared to fulfill their duties to the public to the best of their ability.

IT is gratifying to the Directors to state to the members of the Company, that the business has more than met their expectations, and is rapidly increasing. This unparalleled success in the commencement, and increase of business, show that our plan and management meets with the approval of the public.

The Charter and By-laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the Farmers' Department are on farm property, detached dwellings, country churches, school houses, tanners', shoemakers', and saddlers' shops. No hazardous risks will be taken in either department, nor more than $2000 in one risk, or in a circle of [illegible] rods.

The company possess both the advantages of the Stock and Mutual plan. Any person insuring may pay once and [illegible] the cash premium in full, without a premium note. Stoves may be added or changed, outbuildings erected, if fifty feet from dwelling, and such additions and repairs made as do not increase the hazard, without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance takes effect on the day the application is made. The Company pays, in case of fire, the full amount of damage, not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based upon the actual results of insuring for the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes; thus the rates on exposed dwellings and farm property, are a premium note of one per cent, and a cash premium of fifty cents on each $100 for five years.

In publishing our safe, cheap, and popular plan of Insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery:—

The Washington County Mutual commenced in 1836, by collecting fifty cents on $100; in 1848 they first discovered that this was insufficient to pay losses, and raised to 75 cents, and now are collecting 90 cents on each $100; the result of which is, by their report, Jan. 1, 1850, $9000 in the treasury, and its millions at risk, on which they will probably lose two hundred thousand, making their actual debt 191 thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows what the Washington is fast coming to. They reported to the Comptroller, Jan. 1, 1850, that their losses and cash expenses had exceeded their cash receipts twenty nine thousand dollars, and fifteen thousand dollars. Claims unsettled, pending debts and claims forty-four thousand dollars, and some thirty millions at risk, on which they will probably lose ninety thousand dollars more, making their actual debt one hundred and thirty-four thousand dollars.

The cash premiums now collected by those two companies are so small they insure in future will only pay losses on the same, consequently those insuring with them now not only pay for their insurance, but assume a portion of these enormous debts, which must be raised by tax. These companies are unpopular in New York, and are compelled to wander in the Valley of the Mississippi where they are not so well known for business. Arch Bishop and Foster Wilson may publish, as heretofore, their firm belief that no tax will ever be necessary, but the figures are the things to judge from.

Since the above reports, the Montgomery have levied a tax on their premium notes.

Now we would ask the public candidly, which of these three companies it is to their interest to insure in; the Washington and assume a debt of $191,000, the Montgomery, and assume a debt of $134,000, or of the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

## Dr. Guysott's Improved Extract

OF

## Yellow Dock and Sarsaparilla.

IS NOW PUT UP in the largest sized Bottles, and is acknowledged to be the BEST SARSAPARILLA made, as is certified by the wonderful cures it has performed, the original copies of which are in the possession of the proprietor. Remember, this is the only TRUE and ORIGINAL article.

This Medicine, when used according to directions,

**Will Cure Without Fail,**

Scrofula, or King's Evil, Cancers, Tumors, Eruptions of the Skin, Erysipelas, Chronic Sore Eyes, Ringworm, or Tetters, Scald Head, Rheumatism, Pains in the Bones or Joints, old Sores and Ulcers, Swelling of the Glands, Syphilis, Dyspepsia, Salt Rheum, Disease of the Kidneys, Loss of Appetite, Disease arising from the use of Mercury, Pains in the Side and Shoulders, General Debility, Dropsy, Lumbago, Jaundice, and Costiveness.

### THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla is a sure remedy for Hereditary taint.

**Females, Read the Following.**

New York, N. J., Jan. 27.

*Mr. Bennett*—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause.

J. B. TRIER & Co.

HENDERSVILLE, Oswego Co., May, 1848.

*S. J. Bennett*—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife, which she has used for her complaint, Erysipelas and weakness, falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.

Yours, very respectfully, N. COBURN.

*Cure of an aggravated case of Erysipelas.*

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after the disease is removed. Cures are thus confirmed until time has fully tested that there can be no relapse or return of the disease.

Norway, Herkimer Co., Feb. 1850.

S. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has for several years been suffering under that dreadful loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried all their powers vainly for the months without any beneficial effect whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—they could do nothing more to arrest the terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by October he was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.

Respectfully, JAMES RUSSELL.

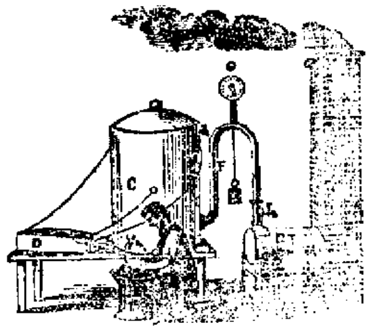
# PATENT MEDICINES,



## Dr. Trasks Magnetic Ointment.

CAN now be obtained in this city of S. JOHNSON, Jr., and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession, from Physicians of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed. For Inflammatory Rheumatism, Burns, Freezes, Lacerated Sores, Scald head, or for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

The attention of Physicians is respectfully called to a rigid scrutiny of the merits of this article.

## TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented La George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined seventeen years since to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla such a one as would be acknowledged by physicians undoubted in its efficiency, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public and its merits completely tested, he confidently appeals to the thousand certificates of its wonderful cures and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the slightest notice?" Tho' it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unequaled reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and to his everlasting credit be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce one of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

### TESTIMONIALS.

Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla. Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern.—Can the world produce better, or more satisfactory testimony in favor of my medicine?

Louisville, May 20, 1849

We have used John Bull's Sarsaparilla and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.

(Signed) E. W. SEHON, E. STEVENSON.

**Testimony** like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.

From Doctor L. P. Yandell, Professor of Chemistry in the Louisville Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable.

L. P. YANDALL, M. D.

Louisville, June 6, 1848.

Better Testimony than was ever offered in favor of any Medicine.

From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.

Louisville, Dec. 26, 1847. J. M. MOORE, M. D.

More Testimony from Dr. Moore.

Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

JAMES M. MOORE, M. D.

Winchester, Ky., Feb. 1, 1848.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla.

Louisville March 20, 1849

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

### INSTANT CURE OF PAIN.

## RADWAY'S READY RELIEF,

CURES THE WORST DISEASES IN MINUTES AND HOURS, AND STOPS THE MOST CRUEL PANGS IN SECONDS.

So quick and efficient is Radway's Ready Relief in stopping pain and curing diseases, that it has frequently raised the diseased and impotent invalid from a bed of sickness in a few hours. It has cured the worst pains of

Special complaints, swellings, bruises, sores, wounds, &c., it will relieve ten times quicker than any other remedy in use.

LET THOSE WHO SUFFER PAIN TRY IT!

It will prove itself in a few minutes. As soon as it is taken internally, or applied externally, its beneficial effects are seen.

IT IS BETTER THAN ALL OTHER REMEDIES.

**HERE IS THE PROOF!**

There is no other remedy that claims to subdue the cruel pangs of pain in seconds, minutes, or even hours. They require the patient to use dose after dose before a favorable change is promised. Not so with RADWAY'S READY RELIEF. Its cures are instantaneous; the first dose that is taken, or the first external application, commences its great work of relief from pain.

SICK HEADACHE CURED IN 20 MINUTES.

Radway's Ready Relief has cured over 90,000 cases of Sick and Nervous Headache during the past season. In the Western States where this distressing complaint is so general, Radway's Ready Relief has cured every case where it has been applied. Our agent, at Romeo, Michigan, writes: "Out of our Village of 1000 inhabitants, Radway's Ready Relief has cured 750 persons of Sick and Nervous Headache, Weakness, Fainting Spells—curing many of the worst cases in the incredible short time of 15 minutes. It is now surpassing every kind of Medicine we have here, in arresting pain and curing diseases of Nervous, Rheumatic, and of Billious types."

LADIES' BEDSIDE COMPANION.

Radway's Ready Relief, from its universal applicability for all Pains, Aches, and Complaints incident to this country, writes our agent at Rockford, Ill., is looked upon as a God-send. "Our ladies will not even go to bed unless they have a bottle of Ready Relief within their reach; and our men will not venture out of their dwellings without a bottle of this safeguard in their pockets. It cures all Pains and all Aches, Headache, Faceache, Toothache, Backache, Earache, Stomachache, Pain in the Limbs, in the Joints, the Muscles, the Legs, Feet, Arms, Shoulders—wherever and whenever the pain may be, it is instantly subdued by the use, either internally or externally, of Radway's Ready Relief."

RHEUMATISM CURED IN 20 MINUTES.

It has cured Mr. T. Feely, of 679 Water-st., who was confined to his bed for nine months, who tried every Liniment, sarsaparilla, Life Balsam of any popularity, without one hour's relief. Radway's Ready Relief stopped all the pain in twenty minutes. Mr. Feely is now in good health. It cured a lady at Clifton, Va., so writes Ray Jones of that place, "in two hours, of Chronic Rheumatism." It cured a gentleman from Sing Sing, who had the Rheumatism for six Years, in twenty-four hours,—so says the Hudson River Chronicle, published in that place. If there is a person in this city, now suffering with Rheumatism, Neuralgia, Nervous, Tic Doloreux, who has tried all other remedies advertised, and has not been cured, we invite you to call upon us at our office, 162 Fulton St., N. Y. and we will warrant you a speedy cure.

WEAK AND ENFEEBLED, VICTIMS OF NEURALGIA.

Radway's Ready Relief possesses a far more potent power over this class of diseases, than Morphine, Quinine, strychnine, or any other Nervine in use. It stops the pain quicker, is free from all poisonous or debilitating properties. It is entirely vegetable, and as innocent as the snow-flake. More powerful than all the Nervous Antidotes, mixtures of Sarsaparilla, &c., in use. Its first action is to bring the sensibility of the nerves—to give strength, vigor and action to the nervous energy; to invigorate the functions and secretions of every organ in the system to a free and healthy action; to give a quickened action to the liver and tone to the stomach; to regulate the action of the bowels and secretions of the skin, and carry out of the system all morbid, poisonous and refuse humors; to give health to the body, to strengthen the nervous energy of the whole system; to change the weak, enfeebled, worn out, broken down constitution to a healthy, robust, joyful, strong and hearty being. A teaspoonful of Radway's Ready Relief, taken internally three times per day, and by applying it externally when pain is present, will do all this.

MARRIED LADIES

Should make use of Radway's Ready Relief as a bath. Its invigorating and relaxing properties softens the flesh, gives strength, elasticity and suppleness to the joints and limbs. Moreover, it is a powerful regulator of the secretions and functions of every organ in the system. Married ladies, by bathing every night with Radway's Ready Relief, at a particular period, will avoid much of the pain attending them on certain occasions.

COUGHS AND COLDS.

Radway's Ready Relief will instantly stop the most troublesome Cough. It has cured hoarseness time and again, in a few hours. Taken internally, it enables the patient to expectorate freely, removes all inflammation, swelling and irritation of Bronchial organs, and by bathing externally, the neck, throat and chest, it produces a quicker action to the skin, the patient perspires freely, it removes the pain from the throat and gives strength to the lungs.

ERUPTIONS OF THE SKIN.

By adding a table spoonful of Relief to a table-spoonful of Olive Oil, it will stop the most painful itching of the skin in a few minutes, and entirely cures Salt Rheum, Ring Worm, Itch, Burns, Sores, Scalds, &c.

# PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

**Another Scientific Wonder!**

## Dr. J. S. HOUGHTON'S GREAT DYSPEPSIA CURER!

## THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

### SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful.

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

### AS A DYSPEPSIA CURER.

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

### OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

**Observe this.**—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

These machines are now used in all parts of the United States, and are admitted by general consent to be superior to all others in the quality of the work executed by them. Their Steam Mill is on West Water street, Fourth Ward, near the Rail Road Depot, where they invite their friends to call and see the Machines in operation and inspect the superior quality of the work done by them.

They also keep at their Lumber Yards on Erie street, (old stand) opposite the Red Warehouse, a full assortment of Lumber.

**Sawed Timber, of all sizes and lengths, Long Joist and Scantling, Planed Lumber of all kinds, a superior article of sawed Shingles, Pickets, and Cedar Posts.**

The quality of their Clear Lumber this season is equal to any to be found in the City, and they would invite the attention of Carpenters and Builders to an inspection of it. They would also give notice that they are the authorized agents for the sale of Rights (which all persons are cautioned against using without right, as such infringements will be legally noticed) to use the Woodworth Planing Machine for the State of Wisconsin.

## Troy Fire Insurance Company

TROY, WALWORTH COUNTY, WIS.

CAPITAL $100,000.

The Directors feel grateful to the public for having thus early manifested their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows:

| | |
|---|---|
| Whole number of Policies issued | 960 |
| Whole amount of Property Insured | $825,651 00 |
| Whole amount of Cash premiums | 5211 37 |
| Whole amount of losses allowed and paid | 371 27 |
| Balance of Cash Premium on hand | 4843 10 |

IT is gratifying to the Directors to state to the members of the Company, that the business has more than met their expectations, and is rapidly increasing. This unparalleled success in the commencement, and increase of business, shows that our plan and management meets with the approval of the public.

The Charter and By-Laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the [illegible] department are on farm property, detached dwellings, country churches, school houses, mechanics' shoemakers', [illegible] shops. No hazardous risks will be taken in either department, nor more than $2000 in one risk, or in a circle of [illegible] rods.

The company possesses all the advantages of the Stock and Mutual plan. Any person insuring may pay once and for all the regular cash premium in full, without a premium note. Stores may be sold or changed, outbuildings erected, if fifty feet from dwelling, and such additions and repairs made as do not increase the hazard, without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays, in case fire, the full amount of damage, not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based on the actual results of insuring for the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes; thus the rates on exposed dwellings and farm property are a premium not of one per cent, and a cash premium of fifty cents on each $100 for five years.

In publishing our safe, cheap and popular plan of Insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery Co.

The Washington County Mutual commenced in 1836, by collecting thirty cents on $100; in 1848 they first discovered that this was insufficient to pay losses, and raised to 33 cents, and now are collecting 50 cents on each $100; the result of which is, by their report, Jan. 1, 1850, $9000 in the treasury, and 68 million at risk, on which they will probably lose two hundred thousand, and making their actual debt [illegible].

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows what the Washington is fast coming to. They reported to the Comptroller, Jan. 1, 1850, that their losses and cash expenses had exceeded their cash receipts twenty nine thousand dollars, and fifteen thousand dollars claims unsettled, making debts and claims forty-four thousand dollars, and some thirty millions at risk, on which they will probably lose ninety thousand dollars more, making their actual debt one hundred and thirty-four thousand dollars.

The cash premiums now collected by those two companies, in what they insure in future will only pay losses on the same, consequently those insuring with them now not only pay for their insurance, but assume a portion of these enormous debts, which must be raised by tax. These companies are unpopular in New York, and are compelled to wander in the Valley of the Mississippi where they are not so well known for business. Arch Bishop and Lester Wilcox may publish, as heretofore their firm belief that no tax will ever be necessary, but the figures are the things to judge from.

Since the above reports, the Montgomery have levied a tax on their premium notes.

Now we would ask the public candidly, which of these three companies it is to their interest to insure in; the Washington, and assume a debt of $190,000, the Montgomery, and assume a debt of $134,000, or of the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

## THE BEST FEMALE MEDICINE KNOWN!

The [illegible] peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this naturally impairs the energy of the mind and vigor [illegible] equanimity of the temper. Every candid woman [illegible] which is suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored by the use of a bottle or two, to bloom and to vigor.

"Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla is a sure remedy for Hereditary taint.

### Females, Read the Following.

NEWARK, N. J., Jan. 25.

Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause.

J. B. TAPP & Co.

HINMANSVILLE, Oswego Co., May, 1848.

S. P. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife, which she has used for her complaint, Erysipelas and weakness, falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.

Yours, very respectfully, N. COBURN.

*Cure of an aggravated case of Erysipelas.*

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patients cured by it, continue to improve after discontinuing the use of it. Cures effected in no time has [illegible] there is no relapse or return of the disease.

NORWAY, Herkimer Co., Feb. 1850.

S. P. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has been [illegible] under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill upon every thing for five months with any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to save a terrible gangrene ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasts than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla" and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used twelve bottles during the year '49, and he is at the present time perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessing of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.

Respectfully, JAMES RUSSELL.

CAN now be obtained in this city of S. JOHNSON, Jr. and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy is mostly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession, from Physicians of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do so. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness where the most skilful medical treatment had failed. For inflammatory Rheumatism, Burns, Freezes, Ulcerated sores, &c. it has none for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish it in the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

The attention of Physicians is respectfully called to a fair scrutiny of the merits of this article.

## TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. P. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the special use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined seven or eight years since to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla, such a one as would be acknowledged by physicians as unbounded in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidentially appeals to the thousand certificates of its wonderful cures, and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked,—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded it, have been cast aside as unworthy of the slightest notice?" The answer is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, then they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and so he has recorded the result, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce one of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

### TESTIMONIALS.

Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla. Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at the time fills the high and responsible station of agent for the M. E. Book Concern.—Can the world produce better, or more satisfactory testimony in favor of any medicine?

Louisville, May 20, 1849

We have used John Bull's Sarsaparilla and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.

(Signed) E. W. SEHON, E. STEVENSON.

**Testimony** like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.

From Doctor L. P. Yandell, Professor of Chemistry in the Louisville, Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable.

L. P. YANDALL, M. D.

Louisville, June 6, 1848.

Better Testimony than was ever offered in favor of any Medicine.

From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.

Louisville, Dec. 26, 1847. J. M. MOORE, M. D.

More Testimony from Dr. Moore.

Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

JAMES M. MOORE, M. D.

Winchester, Ky., Feb. 1, 1848.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla.

Louisville, March 20, 1849.

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

M. PYLES, M. D. Resident Physician at the Marine Hospital.

Special complaints, swellings, bruises, sores, wounds, &c., it will relieve ten times quicker than any other remedy in use.

LET THOSE WHO SUFFER PAIN TRY IT!

It will prove itself in a few minutes. As soon as it is taken internally, or applied externally, its beneficial effects are seen.

IT IS BETTER THAN ALL OTHER REMEDIES.

HERE IS THE PROOF!

There is no other remedy that claims to subdue the cruel pangs of pain in seconds, minutes, or even hours. They require the patient to use dose after dose before a favorable change is promised. Not so with RADWAY'S READY RELIEF. Its cures are instantaneous; the first dose that is taken or the first external application, commences its great work of relief from pain.

SICK HEADACHE CURED IN 20 MINUTES.

Radway's Ready Relief has cured over 90,000 cases of Sick and Nervous Headache during the past season. In the Western States where this distressing complaint is so general, Radway's Ready Relief has cured every case where it has been applied. One agent, at Romeo, Michigan, writes "Out of our Village of 1000 inhabitants, Radway's Ready Relief has cured 750 persons of Sick and Nervous Headache, Weakness, Fainting Spells,—curing many of the worst cases in the incredible short time of 15 minutes. It is now surpassing every kind of Medicine we have here, in arresting pain and curing diseases of Nervous, Rheumatic, and of Bilious type."

LADIES BEDSIDE COMPANION.

Radway's Ready Relief, from its universal applicability for all Pains, Aches, and Complaints incident to this country, with convenience, at Rockford, Ill., is looked upon as a God-send. "Our ladies will not even go to bed unless they have a bottle of Ready Relief within their reach; and our men will not venture out of their dwellings without a bottle of this Relief in their pockets. It cures all Pains, and all Aches; Head-ache, Face-ache, Toothache, Backache, Earache, Stomachache, Pain in the Limbs, in the Joints, the Muscles, the Legs, Feet, Arms, Shoulders—wherever and whatever the pain may be, it is instantly subdued by the use, either internally or externally, of Radway's Ready Relief.

RHEUMATISM CURED IN 20 MINUTES.

It has cured Mr. T. Freely, of 679 Water-st., who was confined to his bed for nine months, who tried every Liniment, Sarsaparilla, Life Balsam of any popularity, without one hour's relief. Radway's Ready Relief stopped all the pain in twenty minutes. Mr. Freely is now in good health. It cured a lady at Clifton, Va., so writes Ray Jones of that place, "in two hours, of Chronic Rheumatism." It cured a man from Sing Sing, who had the Rheumatism for Six Years, in twenty-four hours—so says the Hudson River Chronicle, published in that place. If there is a person in this city, now suffering with Rheumatism, Neuralgia, Nervous, Tic Doloreux, who has tried all other remedies advertised, and has not been cured, we invite you to call upon us at our office, 162 Fulton St., N. Y., and we will warrant you a speedy cure.

WEAK AND ENFEEBLED, VICTIMS OF NEURALGIA.

Radway's Ready Relief possesses a far more potent power over this class of diseases, than Morphine, Quinine, steel wine, or any other Nervine in use. It stops the pain quicker, is free from all poisonous or debilitating properties. It is entirely vegetable, and as innocent as the snow-flake. More powerful than all the Nervous Antidotes, mixtures of Sarsaparilla, &c. in use. Its first action is to blunt the acute sensibility of the nerves—to give strength, vigor and action to the nervous energy; to invigorate the functions and secretions of every organ in the system to a free and healthy action; to give a quickened action to the liver and tone to the stomach; to regulate the action of the bowels and secretions of the skin, and carry out of the system all morbid, poisonous and refuse humors; to give health to the body, to strengthen the nervous energy of the whole system; to change the weak, enfeebled, worn out, broken down constitution to a healthy, robust, joyful, strong and hearty being. A teaspoonful of Radway's Ready Relief, taken internally three times per day, and by applying it externally when pain is present, will do all this.

MARRIED LADIES

Should make use of Radway's Ready Relief as a bath. Its invigorating and relaxing properties softens the flesh, gives strength, elasticity and suppleness to the joints and limbs. Moreover, it is a powerful regulator of the secretions and functions of every organ in the system. Married ladies, by bathing every night with Radway's Ready Relief, at a particular period, will avoid much of the pain attending them on certain occasions.

COUGHS AND COLDS.

Radway's Ready Relief will instantly stop the most troublesome Cough. It has cured hoarseness time and again, in a few hours. Taken internally, it enables the patient to expectorate freely, removes all inflammation, swelling and irritation of Bronchial organs, and by bathing externally, the neck, throat and chest, it produces a quicker action to the skin, the patient perspires freely, it removes the pain from the throat and gives strength to the lungs.

ERUPTIONS OF THE SKIN.

By adding a table spoonful of Relief to a table-spoonful of olive Oil, it will stop the most painful itching of the skin in a few minutes, and entirely cures Salt Rheum, Ring Worm, Itch, Burns, Sores, Scalds, &c.

RADWAY'S MEDICATED SOAP.

Radway's Medicated Soap, so favorably known through the fashionable world for its extremely bland, purifying and soothing effects on the skin; while by its action on the pores and the minute secretory vessels it expels all impurities from the surface, allays every tendency to inflammation, and effectually dissipates all redness, tan, pimples, spots, freckles, discoloration and other cutaneous eruptions. The radiant bloom it imparts to the cheek, the softness and delicacy which it induces of the hands and arms, its capability of soothing irritation and removing cutaneous defects, render it indispensable to every toilet.

Gentlemen after shaving will find it allays all irritation and tenderness of the skin, and renders it soft, smooth and pleasant.

## THE GREAT REMEDY

FOR

PILES, HABITUAL COSTIVENESS,

FEMALE COMPLAINTS,

**Nervous Debility,**

## DYSPEPSIA,

OR

**Loss of Appetite.**

THE CONSTANT USE OF PHYSIC FOR THE ABOVE-NAMED COMPLAINTS, IS INJUDICIOUS AND DANGEROUS!

This any Physician will tell you—The more physic used, the more it requires—at last the tone and action of the bowels are destroyed, and the patient becomes afflicted with numerous kinds of nervous disorders.

The Genuine DR. TOWNSEND'S Sarsaparilla, has never failed in a single instance of curing the Piles and Costiveness, which to Females, is the great cause of those complaints which consume their strength, waste their Nervous energy, and enfeeble the whole Constitution. Mental Weakness is consequent upon physical prostration.

This Medicine acts as a simple, but powerful Tonic. It checks the tendency to exhaustion,

### Dr. JAMES R. CHILTON,

The most celebrated Chemist in the United States, has had charge of the Manufactory for more than a year, and has made many important improvements in the Medicine—from one to two teaspoonfuls of the Improved Sarsaparilla, is all that is required for a dose, to act as a mild Alterative and Tonic.

**Beware of Counterfeits.**

Dr. Chilton's Certificate, printed on green paper, will be found on every bottle prepared since February, 1850, as well as Dr. S. P. Townsend's signature, on steel plate label on the outside wrapper.

# PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

## Dr. J. S. HOUGHTON'S GREAT DYSPEPSIA CURER!

## THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

### SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

### AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

### OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

Observe this.—Every bottle of the genuine Pepsin bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

Sold by all Druggists and Dealers in Medicine.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.

as well as to execute orders from customers when desired. These machines are now used in all parts of the United States, and are admitted by general consent to be superior to all others in the quality of the work executed by them. Their Steam Mill is on West Water street, Fourth Ward, near the Rail Road Depot, where they invite their friends to call and see the Machines in operation and inspect the superior quality of the work done by them.

They also keep at their Lumber Yards on Erie street, (old stand) opposite the Red Warehouse, a full assortment of Lumber.

**Sawed Timber, of all sizes and lengths, Long Joist and Scantling, Planed Lumber of all kinds, a superior article of sawed Shingles, Pickets, and Cedar Posts.**

The quality of their Clear Lumber this season is equal to any to be found in the City, and they would invite the attention of Carpenters and Builders to an inspection of it. They would also give notice that they are the authorized agents for the sale of Rights (which all persons are cautioned against using without right, as such infringements will be legally noticed) to use the Woodworth Planing Machine for the State of Wisconsin.
